Independent Auditors' Report

Board of Trust
The Vanderbilt University:

We have audited the accompanying consolidated statements of financial position of The Vanderbilt University and subsidiaries (Vanderbilt) as of June 30, 2007 and 2006, and the related consolidated statements of activities and cash flows for the years then ended. These consolidated financial statements are the responsibility of Vanderbilt's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Vanderbilt's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of The Vanderbilt University and subsidiaries as of June 30, 2007 and 2006, and the changes in their net assets and their cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

In accordance with the *Government Auditing Standards*, we have also issued a report dated September 28, 2007 on our consideration of The Vanderbilt University's internal control over financial reporting and on our tests on its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and do not provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards for the year ended June 30, 2007 is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the consolidated financial statements. Such information has been subjected to the auditing procedures applied on the audit of the consolidated financial statements and, in our opinion, is fairly stated in all material respects, in relation to the consolidated financial statements taken as a whole.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION

The Vanderbilt University (Vanderbilt) is a privately endowed, coeducational, not-for-profit, nonsectarian institution located in Nashville, Tennessee. Founded in 1873, Vanderbilt owns and operates educational and research facilities as well as a health care system. Vanderbilt provides educational services to approximately 6,400 undergraduate and 5,200 graduate and professional students enrolled in its 10 schools and colleges. The Chancellor and the Board of Trust, the governing board of Vanderbilt, have oversight responsibility for all of Vanderbilt's financial affairs.

These consolidated financial statements include the accounts of all entities in which Vanderbilt has a significant financial interest and over which Vanderbilt has control, including its hospitals and clinics. All significant intercompany accounts and transactions have been eliminated in consolidation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The consolidated financial statements of Vanderbilt have been prepared on the accrual basis in accordance with U.S. generally accepted accounting principles.

Based on the existence or absence of donor-imposed restrictions, Vanderbilt classifies resources into three categories: unrestricted, temporarily restricted, and permanently restricted net assets.

Unrestricted net assets are free of donor-imposed restrictions. All revenues, gains, and losses that are not temporarily or permanently restricted by donors are included in this classification. All expenditures are reported in the unrestricted class of net assets, since the use of restricted contributions in accordance with donors' stipulations results in the release of the restriction.

Temporarily restricted net assets are limited as to use by donor-imposed stipulations that expire with the passage of time or that can be satisfied by action of Vanderbilt. These net assets may include unconditional pledges, split-interest agreements, and interest in trusts held by others.

Permanently restricted net assets are amounts required by donors to be held in perpetuity. These net assets may include unconditional pledges, true endowment, split-interest agreements, and interest in trusts held by others. Generally, the donors of these assets permit Vanderbilt to use all or part of the income earned on related investments for general or specific purposes.

Expirations of temporary restrictions on net assets, i.e., the passage of time and/or fulfilling donor-imposed stipulations, are reported as net assets released from restrictions between the applicable classes of net assets in the consolidated statements of activities.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include highly liquid investments with nominal interest rate risk and original maturities of three months or less when purchased. Such investments primarily consist of money market funds, certificates of deposit, and commercial paper. The carrying amounts of these items are a reasonable estimate of their fair value.

PREPAID EXPENSES AND OTHER ASSETS

Prepaid expenses and other assets primarily represent inventories, prepaid expenses, and other segregated investment-related assets managed by third parties that are earmarked to ultimately settle certain liabilities. This latter group of assets, reported at fair value, is excluded from the investments category since Vanderbilt will not directly benefit from the investment return. The carrying amounts for inventories and prepaid expenses are a reasonable estimate of their fair value.

INVESTMENTS

Investments are reported at fair value, based primarily on market quotes. Fair values for certain alternative investments (mainly investments in limited partnerships) primarily are based on estimates reported by fund managers where a ready market for the investments does not exist. The estimated values are reviewed and evaluated by Vanderbilt.

Vanderbilt has significant exposure to a number of risks including interest rate, market, and credit risks for both marketable and non-marketable securities. Due to the level of risk exposure, it is possible that near-term valuation changes for invest-

ment securities may occur to an extent that could materially affect the amounts reported in Vanderbilt's financial statements.

Vanderbilt management approves strategic use of derivatives by external investment managers to manage market risks. The most common strategies engaged by such managers are futures contracts, short sales, and hedges against currency translation risk for investments denominated in other than U.S. dollars. These derivative instruments are recorded at their respective fair values.

Through an agreement with its primary investment custodian, Vanderbilt participates in security lending to brokers. For pledged cash and cash equivalents collateral under the control of Vanderbilt, an asset and corresponding liability are recorded representing the market value of such collateral.

Purchases and sales of securities are recorded on the trade dates, and realized gains and losses are determined on the basis of the average historical cost of the securities sold. Net receivables and payables arising from unsettled trades by investment managers are reported as a component of investments.

All true endowment investments and long-term net assets functioning as endowment are managed in a pool, unless special considerations or donor stipulations require that they be held separately.

Gains and losses on investments generally are reported as increases or decreases in unrestricted net assets unless explicit donor stipulations or law restrict their use.

SPLIT-INTEREST AGREEMENTS AND INTEREST IN TRUSTS HELD BY OTHERS

Vanderbilt's split-interest agreements with donors consist primarily of irrevocable charitable remainder trusts, charitable gift annuities, and life income funds for which Vanderbilt serves as trustee. Assets held in these trusts are included in investments. Contribution revenue is recognized at the dates the trusts are established, net of the liabilities for the present value of the estimated future payments to be made to the donors and/or other beneficiaries. Annually, Vanderbilt records the change in value of split-interest agreements by marking to market the assets that are associated with each trust and recalculating the liability for the present value of the estimated future payments to be made to the donors and/or other beneficiaries.

Vanderbilt is also the beneficiary of certain trusts held and administered by others. Vanderbilt's share of these trust assets is recorded at fair value as interest in trusts held by others with carrying values adjusted annually for changes in fair value.

PROPERTY, PLANT, AND EQUIPMENT

Purchased property, plant, and equipment are recorded at cost, including, where appropriate, capitalized interest. Donated assets are recorded at fair value at the date of donation. Additions to the library collection are expensed at the time of purchase. Repairs and maintenance costs are expensed as incurred.

Depreciation is calculated by the straight-line method at rates estimated to allocate the cost of various classes of assets over their estimated useful lives. Equipment is removed from the accounting records at the time of disposal.

Conditional asset retirement obligations related to legal requirements to perform certain future activities related to the retirement, disposal, or abandonment of assets are accrued utilizing site-specific surveys to estimate the net present value for applicable future costs, e.g., asbestos abatement or removal.

Vanderbilt reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. An impairment charge is recognized when the fair value of the asset or group of assets is less than the carrying value.

DEBT PORTFOLIO FINANCIAL INSTRUMENTS

Using market quotations for similar issues or borrowings, Vanderbilt evaluates the estimated fair value of its fixed-rate long-term indebtedness relative to carrying value. Principal balances for fixed-rate debt are reported at carrying value, which is substantially equivalent to estimated fair value.

Vanderbilt employs derivatives, primarily interest rate swap agreements, to manage market risks associated with variable-rate debt. Derivative financial instruments are reported at fair value with any resulting gain or loss recognized as a non-operating item in the consolidated statements of activities. Periodic net cash settlement amounts with counterparties are accounted for as adjustments to interest expense on the related debt.

Parties to interest rate swap agreements are subject to market risk for changes in interest rates as well as risk of credit loss in the event of non-performance by the counterparty. Vanderbilt deals only with high-quality counterparties that meet rating criteria for financial stability and credit worthiness. Additionally, Vanderbilt requires the posting of collateral when amounts subject to credit risk under swap arrangements exceed specified levels.

REVENUE RECOGNITION

Vanderbilt's revenue recognition policies are as follows:

Tuition and educational fees, net—Student tuition and educational fees are recorded as revenues during the year the related academic services are rendered. Student tuition and educational fees received in advance of services to be rendered are recorded as deferred revenue. Financial aid provided by Vanderbilt for tuition and educational fees is reflected as a reduction of tuition and educational fees. Financial aid does not include payments made to students for services rendered to Vanderbilt.

Government grants and contracts—Revenues from government grants and contracts are recognized when allowable expenditures are incurred under such agreements.

Facilities and administrative (F&A) costs recovery—F&A costs recovery, historically referred to as indirect cost recovery, is recognized as revenue and represents reimbursement, primarily from the federal government, of F&A costs on sponsored activities. The federal F&A costs recovery rate for on-campus research was 53.0% and 52.0% in fiscal 2007 and fiscal 2006, respectively. This rate increases to 53.5% in fiscal 2008.

Health care services—Health care services revenue is reported at established rates, net of contractual adjustments and charity services. Third party contractual revenue adjustments under governmental reimbursement programs are accrued on an estimated basis in the period the related services are rendered. The estimated amounts are adjusted as final settlements are determined by the fiscal intermediary for each program. Health care services revenue includes that of Vanderbilt University Hospitals and Clinics, Vanderbilt Medical Group, Vanderbilt Health Services, Inc., and other activities directed toward the purpose of providing health care services to the community.

CONTRIBUTIONS

Unconditional promises to give (pledges) are recognized as contribution revenue when the donor's commitment is received. Conditional promises (primarily bequest intentions) are not recorded until donor stipulations are substantially met.

Unconditional promises to give, with payments due to Vanderbilt in future periods, are recorded as increases in temporarily restricted or permanently restricted net assets at the estimated present value of future cash flows, net of an allowance for estimated uncollectible promises. Amortization of

the discount is recorded as additional contributions in the appropriate net asset class. Allowance is made for uncollectible contributions receivable based upon management's analysis of past collection experience and other judgmental factors.

Contributions with donor-imposed restrictions are recorded as unrestricted revenue if those restrictions are met in the same reporting period. Otherwise, contributions with donor-imposed restrictions are recorded as increases in temporarily restricted or permanently restricted net assets, depending on the nature of the restriction.

Contributions recorded as temporarily restricted net assets are released from restrictions and recognized as unrestricted net assets upon receipt of the gift or expiration of the time restriction, and after any donor stipulations are met. Gifts for plant facilities are released from restrictions and recognized as a non-operating item only after resources are expended for the applicable plant facilities.

Contributions receivable of pledged securities are stated at the fair value of the underlying securities. Net changes on shares pledged in prior years due to fair value changes for the underlying securities are reported separately as a non-operating gain or loss on contributions receivable in the consolidated statements of activities.

ENDOWMENT DISTRIBUTION POLICY

Vanderbilt employs a total return policy that establishes the amount of endowment income distributed to support current operational needs. This policy is designed to reduce the impact of capital market fluctuations on operational programs.

Under this policy, endowment income distributions are based on 4.5% of the average of the previous three calendar year-end market values. Actual endowment return earned in excess of distributions under this policy is reinvested as part of Vanderbilt's managed endowment and is reported as a non-operating item in the consolidated statements of activities. For years where actual endowment return is less than distributions under the policy, the shortfall is covered by realized returns from prior years.

Additionally, the Board of Trust has authorized the use of previously reinvested income, realized capital gains, and principal related to unrestricted funds functioning as endowment for special transinstitutional academic development initiatives. Endowment distributions reported in the consolidated statements of activities include both (a) distributions to support current operational needs under the policy as previously described and (b) the aforementioned supplemental

endowment distributions for special academic initiatives to the extent operating expenditures have been incurred.

The supplemental use of unrestricted funds functioning as endowment to invest in capital needs of special academic initiatives is not reported as endowment distributions in the consolidated statements of activities.

OPERATING RESULTS

Operating results (change in unrestricted net assets from operating activity) in the consolidated statements of activities reflect all transactions that change unrestricted net assets, except gifts for plant facilities, activity associated with endowment investments, changes in the fair value of interest rate swap agreements, and certain other non-recurring items. In accordance with Vanderbilt's endowment distribution policy, as previously described, only the portion of total investment return distributed under this policy to meet operating needs is included in operating revenue. Operating investment income consists of dividends, interest, and gains and losses on unrestricted, non-endowed investments.

Fundraising costs are not material to Vanderbilt's contributions or total program costs. In fiscal 2007 and fiscal 2006, approximately 54% and 58%, respectively, of private gifts, grants, and contracts revenue represent transactions where Vanderbilt services are provided to other parties.

Overall management and administrative support costs attributable to divisions that primarily provide health care or auxiliary services are allocated based upon institutional budgets. Thus, institutional support expense reported in the consolidated statements of activities relates to Vanderbilt's other primary programs such as instruction, research, and public service.

Furthermore, costs related to the operation and maintenance of physical plant, including depreciation of plant assets, are allocated to operating programs and supporting activities based upon facility usage. Additionally, interest expense on external debt is allocated to the activities that have benefited most directly from the debt proceeds.

INCOME TAXES

Vanderbilt is a tax-exempt organization as described in Section 501(c)(3) of the Internal Revenue Code (the Code), and is generally exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Vanderbilt is, however, subject to federal and state income tax on unrelated business income, and provision for such taxes is included in the accompanying financial statements.

USE OF ESTIMATES

The preparation of financial statements requires the use of estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses during the reporting period as well as the disclosure of contingent assets and liabilities. Actual results ultimately could differ from management's estimates.

REDESIGNATIONS

When donors amend or clarify intent for applicable gifts and contributions reported in a previous fiscal year, revisions are separately reflected as donor designation changes within the consolidated statements of activities.

RECLASSIFICATIONS

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

3. ACCOUNTS RECEIVABLE

Accounts receivable as of June 30 were as follows
(in thousands):

	07	06
Patient care	\$ 349,348	\$ 313,601
Students, grants, and other	94,900	79,136
Accrued investment income	15,447	6,648
Accounts receivable	459,695	399,385
Less: Allowance for bad debts	148,559	141,818
Accounts receivable, net	\$ 311,136	\$ 257,567

4. CONTRIBUTIONS RECEIVABLE

Contributions receivable as of June 30 were as follows
(in thousands):

	07	06
Unconditional promises expected to be collected:		
In one year or less	\$ 21,887	\$ 22,275
Between one year and five years	58,706	69,739
In more than five years	3,192	4,869
Contributions receivable	83,785	96,883
Less: Unamortized discount	9,835	8,817
Allowance for uncollectible promises	8,808	7,458
Contributions receivable, net	\$ 65,142	\$ 80,608

Vanderbilt's net contributions receivable include amounts due from the Ingram Charitable Fund (ICF) totaling \$3.1 million and \$21.1 million as of June 30, 2007 and 2006,

respectively. The assets of the ICF primarily consist of privately held Ingram Industries Inc. common stock as of June 30, 2007.

Contributions receivable scheduled to be collected after one year are discounted at a rate commensurate with the anticipated timing of receipt. Such amounts outstanding as of June 30, 2007 and 2006, generally are discounted at 5.0%.

The methodology for calculating an allowance for uncollectible promises is based upon management's analysis of the aging of payment schedules for all outstanding pledges. This review resulted in allowances for uncollectible promises totaling 11% and 10% of contributions receivable (excluding the ICF) as of June 30, 2007 and 2006, respectively.

In addition to pledges reported as contributions receivable, Vanderbilt had received bequest intentions of approximately \$183.5 million as of June 30, 2007. These intentions to give are not recognized as assets due to their conditional nature. If these bequests are received, generally they will be restricted for specific purposes stipulated by the donors, primarily endowments for faculty support, scholarships, or general operating support of a particular department or division of Vanderbilt.

5. INVESTMENTS

Investments by security type as of June 30 were as follows (in thousands):

	►► 07	06
Short-term securities	\$ 52,891	\$ 81,358
Bonds	407,026	351,083
Stocks	1,042,006	975,572
Partnership investments	2,081,772	1,636,125
Mortgages	2,929	6,834
Real estate	220,680	190,013
Other	40,963	35,351
Net receivables for unsettled trades by investment managers	477	717
Total fair value	<u>\$3,848,744</u>	<u>\$3,277,053</u>
Total cost	<u>\$2,850,643</u>	<u>\$2,732,570</u>

Through an agreement with its primary investment custodian, Vanderbilt participates in lending securities to brokers. Among other provisions that limit Vanderbilt's risk, this agreement specifies that the custodian is responsible for managing strict borrower collateral requirements. Collateral, which is pooled by the custodian, generally is limited to cash, government securities, and irrevocable letters of credit. Depending on the type of securities being lent, minimum collateral ranges from 101% to 105% with required daily marking-to-market.

Both the investment custodian and security borrowers have the right to terminate a specific loan of securities at any time. Other than for an event of default, the investment custodian is prohibited from re-pledging or otherwise encumbering the pledged collateral. Vanderbilt receives lending fees and continues to earn interest and dividends on the loaned securities.

At June 30, 2007, investment securities with a fair value of \$337.8 million were loaned to various approved brokers under this program with collateral having a total market value of \$353.5 million, including cash and cash equivalents of \$279.1 million. The cash and cash equivalents collateral and the obligation to return such collateral are reported as an asset and liability on the consolidated statements of financial position.

6. INVESTMENT RETURN

As previously noted, Vanderbilt employs a total return policy that establishes endowment appreciation distributions. Additionally, the Board of Trust authorized the use of funds functioning as endowment to support operating and capital needs of certain transinstitutional initiatives. Endowment distributions in fiscal 2007 and 2006 were based on 4.5% of the average of the previous three calendar year-end market values plus the use of \$9.6 million and \$10.5 million of funds functioning as endowment for operating expenses of transinstitutional initiatives in fiscal 2007 and 2006, respectively.

Further, \$1.1 million and \$2.3 million of unrestricted funds functioning as endowment were utilized for capital needs of transinstitutional initiatives in fiscal 2007 and 2006, respectively. Liquidations for these special capital investments are excluded from the following summary of endowment distributions and other investment income for the fiscal years ended June 30 (in thousands):

	►► 07	06
Operating		
Endowment distributions	\$ 121,118	\$ 109,270
Investment income	59,458	28,256
Total operating return	<u>180,576</u>	<u>137,526</u>
Non-operating		
Unrestricted:		
Endowment appreciation utilized	(126,111)	(112,324)
Investment income	636,906	374,907
Temporarily restricted:		
Endowment distributions	3,511	2,816
Investment income	14,462	18,179
Permanently restricted:		
Endowment distributions	1,482	794
Investment income	22,325	3,018
Total non-operating return	<u>552,575</u>	<u>287,390</u>
Total investment return	<u>\$ 733,151</u>	<u>\$ 424,916</u>

The components of total investment return for the fiscal years ended June 30 were as follows (in thousands):

	►► 07	06
Net interest, dividend, and partnership income	\$ 76,411	\$ 68,051
Net realized gains from original cost	199,281	247,469
Net unrealized gains	457,459	109,396
Total investment return	\$ 733,151	\$ 424,916

In addition to a core group of investment professionals dedicated to the management of the university's endowment, Vanderbilt also employs external investment managers to a large degree. Particularly for alternative investments such as hedge funds, investment manager fee structures frequently have a base component along with a performance component relative to the entire life of the investments. Under these sorts of arrangements, management fees frequently are subject to substantial adjustments based on cumulative future returns for a number of years hence.

Fees paid directly to external investment managers (i.e., segregated investment account fees) totaled \$2.7 million and \$4.6 million in fiscal years 2007 and 2006, respectively.

7. NET ASSET COMPONENTS OF ENDOWMENT

The endowment represents only those endowment-related net assets that are under the management control of Vanderbilt. Gift annuities, interest in trusts held by others, and certain contributions pending transfer are not considered components of the endowment. A summary of Vanderbilt's endowment as of June 30 follows (in thousands):

	►► 07	06
Unrestricted net assets:		
Funds functioning as endowment, at cost	\$1,834,203	\$1,754,792
Net unrealized appreciation on investments	969,265	537,895
Exclude net unrealized (gains)/losses allocable to other investments	(3,941)	643
Funds functioning as endowment	2,799,527	2,293,330
Temporarily restricted net assets:		
Funds functioning as endowment, at cost	10,922	9,433
Permanently restricted net assets:		
True endowment	677,809	612,857
Fair value of endowment	\$3,488,258	\$2,915,620

8. PROPERTY, PLANT, AND EQUIPMENT

Property, plant, and equipment as of June 30 were as follows (in thousands):

	►► 07	06
Land	\$ 50,363	\$ 49,651
Buildings and improvements	1,918,400	1,810,770
Moveable equipment	608,362	585,484
Construction in progress	212,808	117,178
Property, plant, and equipment	2,789,933	2,563,083
Less: Accumulated depreciation	1,195,426	1,105,924
Property, plant, and equipment, net	\$ 1,594,507	\$ 1,457,159

Purchases for the library collection are not included in the foregoing since they are expensed at the time of purchase. As of June 30, 2007, the estimated replacement cost for library collections, including processing costs to properly identify, catalog, and shelf materials, exceeds \$221.1 million. Capitalized interest of \$0.4 million and \$0.7 million was added to construction in progress and/or buildings and improvements in fiscal 2007 and 2006, respectively. Internally developed software costs of \$2.9 million and \$3.0 million were capitalized in fiscal 2007 and fiscal 2006, respectively.

In March 2005, the Financial Accounting Standards Board (FASB) issued Interpretation No. 47 (FIN 47), *Accounting for Conditional Asset Retirement Obligations*, as an interpretation of FASB Statement No. 143, *Accounting for Asset Retirement Obligations*. Vanderbilt implemented FIN 47 with an effective date of June 30, 2006. Vanderbilt identified conditional asset retirement obligations, primarily for the costs of asbestos removal and disposal, resulting in liabilities of \$18.5 million and \$17.5 million as of June 30, 2007 and 2006, respectively. These liabilities, which are estimated using an inflation rate of 4.0% and a discount rate of 5.0%, are reported as accounts payable and accrued liabilities on the consolidated statements of financial position. Implementation of FIN 47 resulted in \$17.5 million reported as the cumulative effect of a change in accounting principle in fiscal 2006 and an additional \$1.0 million reported as an operating expense in fiscal 2007.

9. LONG-TERM DEBT, CAPITAL LEASES, AND COMMERCIAL PAPER

Long-term debt consists of bonds and notes payable with scheduled final maturity dates at least one year after the original issuance date. The following table reflects fixed/variable allocations before the effects of interest rate swap agreements

used by Vanderbilt to manage its debt portfolio. Such agreements are covered in more detail in a successive footnote. Outstanding long-term debt, capital leases, and commercial paper obligations as of June 30 were as follows (*in thousands*):

	Years to Maturity	Fiscal 2007 Effective Interest Rate	Outstanding Principal	
			2007	2006
Fixed-rate long-term debt				
1996 Series A	2	5.9%	\$ 2,230	\$ 3,265
1997 Series A	12	5.3%	22,335	23,635
1998 Series A	9	5.6%	18,185	19,700

Par amount of long-term debt			732,103	747,585
Net unamortized premium			7,723	12,435
Total long-term debt			739,826	760,020
Capital leases	3	3.5%	3,140	1,767
Total long-term debt and capital leases			742,966	761,787
Tax-exempt commercial paper, series A and B	<1	3.7%	362,920	144,830
Total long-term debt, capital leases, and commercial paper			\$ 1,105,886	\$ 906,617

¹Issued under Master Trust Indenture structure.

²The 2005B bonds are fixed only through put dates in fiscal years 2008 through 2010 when re-marketing could result in differing modes.

Tax-exempt commercial paper and all of the aforementioned bonds (with the exception of the HUD bonds), have been issued by the Health and Educational Facilities Board of the Metropolitan Government of Nashville and Davidson County, Tennessee (HEFB). As a conduit issuer, the HEFB loans the debt proceeds to Vanderbilt. Pursuant to loan agreements, Vanderbilt's debt service requirements under these loan agreements coincide with required debt service of the actual HEFB bonds.

Included in the foregoing are hospital and clinic (patient care) bonds, with a principal balance outstanding of \$379.3 million as of June 30, 2007, that were issued under a Master Trust Indenture (MTI) structure. The MTI provides the flexibility for multiple parties to participate in debt issuances as part of an obligated group; presently, Vanderbilt's hospitals and clinics have no other members participating in its obligated group. Bonds issued under the MTI are payable solely from hospital revenues (as defined in the MTI). All

MTI bonds presently outstanding are also supplemented by a Vanderbilt guarantee of debt service.

Selected information for long-term debt, commercial paper, and interest rate swap agreements follows *(in thousands)*:

	▶▶ 07	06
Interest cost paid, net	\$ 37,194	\$ 34,757
Interest cost expensed	\$ 32,028	\$ 26,474
Assets held by trustees for subsequent debt service as of June 30	\$ 2,944	\$ 5,352

Principal payments and scheduled sinking fund requirements on the par amount of long-term debt due in subsequent fiscal years ending June 30 are as follows *(in thousands)*:

2008	\$ 16,522
2009	24,481
2010	16,450
2011	17,320
2012	18,085
Thereafter	639,245
Total	\$ 732,103

Under certain circumstances, variable-rate bond obligations may be converted to a fixed-rate structure. While these bonds are in a variable-rate mode, they are subject to optional and mandatory tender. Vanderbilt has agreements with

remarketing agents to re-market any bonds so tendered. Liquidity for the variable debt portfolio (both commercial paper and variable-rate demand bonds) is covered primarily by portfolio self-liquidity. Additionally, a bank revolving credit facility, with an available commitment amount of \$100 million as of June 30, is in place and dedicated solely to debt portfolio liquidity. At Vanderbilt's option, the available commitment may be increased to an amount up to \$250 million. There were no borrowings outstanding on the revolving credit agreement as of June 30, 2007 or 2006.

Trust indentures for certain bond issues contain covenants and restrictions involving the issuance of additional debt, maintenance of a specified debt service coverage ratio, and the maintenance of liquidity facilities. As of and for the fiscal year ended June 30, 2007 and 2006, respectively, management believes that Vanderbilt has complied with applicable covenants.

In fiscal 2007, Vanderbilt issued \$218.1 million of commercial paper under its \$600 million tax-exempt commercial paper program to finance the construction, expansion, and renovation of various Vanderbilt facilities and related equipment, most notably The Commons, the construction of hospital garages and the new hospital critical care tower, and future renovation of space at 100 Oaks.

Vanderbilt's taxable commercial paper program is authorized for draws up to \$75 million. No draws were made under this commercial paper program during the year.

10. INTEREST RATE SWAP AGREEMENTS

To manage the fixed/variable mix for its debt portfolio, including hedging exposure to increasing interest expense from variable rate debt, Vanderbilt utilizes interest rate swap agreements.

The fair value of interest rate swap agreements is the estimated amount that Vanderbilt would pay or receive to terminate these contracts as of the report date. The estimated cumulative gain for the fair value of these swap agreements was \$60.9 million and \$23.6 million as of June

30, 2007 and 2006, respectively, and is included in prepaid expenses. Changes in the fair value for these contracts, which for fiscal 2007 and 2006 amounted to an unrealized gain of \$37.3 million and \$68.9 million, respectively, were recorded as other non-operating items in the consolidated statements of activities.

As of June 30, 2007, Vanderbilt's adjusted debt portfolio, after taking into account the aforementioned derivatives and except for forward starting swaps, was approximately 45% fixed and 55% variable. Outstanding interest rate swap agreements as of June 30 were as follows (*in thousands*):

Origination/ Description	Settlement Provisions	Maturity	Outstanding Notional Amounts	
			2007	2006
January 2002 fixed payer swaps	Vanderbilt receives variable payments based on 70% of London Interbank Offered Rate (LIBOR) and pays fixed amounts at a weighted average rate of 3.990%	Gradual amortization ¹ , corresponding to principal retirements for Vanderbilt's Series 2000A and 2000B bonds, with final expiration in October 2030	\$121,400	\$124,000
January 2005 fixed payer swaps	Vanderbilt receives variable payments based on 68% of LIBOR and pays fixed amounts at a weighted average rate of 3.433%	Amortization commences in October 2033, corresponding to principal retirements for Vanderbilt's Series 2005A bonds, with final expiration in October 2044	\$ 80,000	\$ 80,000
Other fiscal 2005 fixed payer swaps	Vanderbilt receives variable payments based on 68% of LIBOR and pays fixed amounts at a weighted average rate of 3.460%	Bullet maturities in October 2039	\$315,000	\$315,000
January 2005 fixed receiver swaps	Vanderbilt receives fixed payments averaging 2.997% and pays variable amounts based on the Securities Industry and Financial Markets Association (SIFMA) swap index	Amortization commences in April 2008, corresponding to scheduled re-marketings for Vanderbilt's Series 2005B bonds, with final maturity in April 2010	\$277,750	\$277,750
March 2005 and August 2005 fixed receiver swaps	Vanderbilt receives fixed payments averaging 3.428% and pays variable amounts based on the SIFMA index	Bullet maturities ² in April 2008 and September 2009	\$200,000	\$200,000
Fiscal 2005 and 2006 basis swaps	Vanderbilt receives payments averaging 82.2% of LIBOR and pays variable amounts based on the SIFMA index	Bullet maturities in July 2034 and 2035	\$500,000	\$500,000
Fiscal 2007 forward starting fixed payer swaps	Vanderbilt will receive variable payments based on the SIFMA index or 68% of LIBOR and will pay fixed amounts at a weighted average rate of 3.60% with payments commencing October 1, 2007, and May 1, 2008, on notional amounts of \$100,000 and \$300,000, respectively	Bullet maturities in October 2037 and May 2040	—	—
Fiscal 2007 reverse basis swaps	Vanderbilt receives variable payments based on the SIFMA index and pays variable amounts based on 60% of LIBOR plus a fixed amount of 0.804%	Bullet maturities in July 2035	\$150,000	—

¹Commencing in October 2012, the counterparty has an option to cancel 50% of the outstanding notional amount without a termination payment, which would result in a remaining fixed payment commitment of 4.175%.

²The counterparty has an option exercisable in April 2008 to extend the transaction for two additional years. If exercised, the fixed payment rate will increase to 3.75%.

Periodic net cash settlement receipts for all agreements aggregated \$1.9 million and \$0.5 million for fiscal 2007 and 2006, respectively, and were reflected as adjustments to operating expense in the consolidated statements of activities.

In September 2007, Vanderbilt entered into a forward-starting, fixed-payer swap with a notional amount of \$200 million and a maturity of October 2043. Vanderbilt will receive payments averaging 68% of LIBOR and will pay fixed amounts at a weighted average rate of 3.55% with payments commencing October 1, 2008.

11. NET ASSETS

Vanderbilt has chosen to provide further classification information about net assets.

Unrestricted net assets are internally designated into the following groups:

Designated for operations represents the cumulative budgeted operating activity of Vanderbilt and routine equipment replacement reserves.

Designated gifts and grants are composed of departmental gift and grant funds.

Designated for student loans represents Vanderbilt funds set aside to serve as revolving loan funds for students.

Designated for plant facilities represents the net investment in property, plant, and equipment, as well as funds designated for future acquisitions of plant facilities and retirement of debt.

Funds functioning as endowment are amounts set aside by the Board of Trust, intended to generate income in perpetuity to support operating needs. Such amounts include substantially all cumulative realized appreciation on the applicable investments.

Net unrealized appreciation on investments represents cumulative unrealized net gains from original cost on marketable investments. Most of the net unrealized appreciation is attributable to funds functioning as endowment.

Net fair value of interest rate swap agreements represents the mark-to-market valuation for derivative contracts. Because these agreements are intended to serve as long-term hedges within the debt portfolio, segregation apart from other designations is maintained.

Based on the foregoing designations, unrestricted net assets as of June 30 were as follows (*in thousands*):

	►► 07	06
Designated for operations	\$ 272,122	\$ 202,847
Designated gifts and grants	133,800	131,021
Designated for student loans	31,446	30,735
Designated for plant facilities	771,451	764,280
Funds functioning as endowment, at cost	1,834,203	1,754,792
Net unrealized appreciation on investments	969,265	537,895
Net fair value of interest rate swap agreements	60,926	23,592
Total unrestricted net assets	\$ 4,073,213	\$ 3,445,162

Temporarily restricted net assets as of June 30 were composed of the following (*in thousands*):

	►► 07	06
Gifts and pledges	\$ 110,264	\$ 131,210
Interest in trusts held by others	10,148	7,604
Life income and gift annuities	13,082	16,941
Total temporarily restricted net assets	\$ 133,494	\$ 155,755

Such temporarily restricted net assets were available for the following purposes as of June 30 (*in thousands*):

	►► 07	06
Student scholarships	\$ 1,275	\$ 1,020
Instruction	3,879	3,401
Capital improvements	9,021	10,065
Subsequent period operations and other	119,319	141,269
Total temporarily restricted net assets	\$ 133,494	\$ 155,755

Permanently restricted net assets as of June 30 were composed of the following (*in thousands*):

	►► 07	06
True endowment	\$ 677,809	\$ 612,857
Interest in trusts held by others	38,917	35,332
Life income and gift annuities	33,643	29,332
Gifts and pledges	60,589	47,307
Total permanently restricted net assets	\$ 810,958	\$ 724,828

12. NATURAL CLASSIFICATION OF EXPENSES AND ALLOCATIONS

Operating expenses incurred in the fiscal years ended June 30, 2007 and 2006, were as follows (*in thousands*):

	►► 07	06
Salaries, wages, and benefits	\$ 1,524,913	\$ 1,397,173
Services	131,005	117,136
General expenses and supplies	580,818	537,928
Depreciation and amortization	130,375	120,980
Interest	32,028	26,474
Provision for bad debts	146,459	130,927
Utilities, operating leases, and other	105,776	97,427
Total operating expenses	\$ 2,651,374	\$ 2,428,045

Certain allocations of institutional and other support costs were made to Vanderbilt's primary programs. Based on the functional uses of space on its campus, Vanderbilt allocated depreciation and interest on indebtedness to the various functional expense categories shown below (*in thousands*):

►► 07

	Interest	Depreciation
Instruction	\$ 2,942	\$ 16,175
Research	5,332	20,032
Health care services	13,765	55,061
Academic support	1,008	8,545
Institutional support	952	12,015
Student services	306	1,676
Public service	168	1,090
Room, board, and other auxiliary services	7,555	15,781
Total	\$ 32,028	\$ 130,375

06

	Interest	Depreciation
Instruction	\$ 2,723	\$ 15,664
Research	4,652	18,223
Health care services	13,058	50,973
Academic support	894	8,132
Institutional support	730	10,894
Student services	270	1,583
Public service	158	1,156
Room, board, and other auxiliary services	3,989	14,355
Total	\$ 26,474	\$ 120,980

13. RETIREMENT PLANS

Vanderbilt's full-time faculty and staff members participate in defined contribution retirement plans administered by third-party investment and insurance firms. For eligible employees with one year of continuous service, these plans require employee and matching employer contributions; such contributions immediately fully vest with the employee.

Vanderbilt's obligations under these plans are fully funded by periodic transfers to the respective retirement plan administrators with the corresponding expenses recognized in the year incurred. Retirement plan contributions for fiscal 2007 and 2006 were \$42.6 million and \$39.4 million, respectively.

14. STUDENT FINANCIAL AID

Vanderbilt provides financial aid to students based upon need and merit. This financial assistance is funded by institutional resources, gifts, endowment income, and externally sponsored aid.

In fiscal 2007 and 2006, financial aid for tuition and educational fees of \$136.5 million and \$128.0 million was applied to gross tuition and educational fees of \$335.5 million and \$316.2 million, respectively. In fiscal 2007 and 2006, financial aid for room and board of \$17.1 million and \$15.6 million was applied to gross room and board of \$46.2 million and \$43.6 million, respectively.

Loans to students from Vanderbilt funds are carried at cost, which, based on secondary market information, approximates the fair value of educational loans with similar interest rates and payment terms. Loans receivable from students under governmental loan programs, also carried at cost, can only be assigned to the federal government or its designees. Loan balances are net of allowances for estimated uncollectible accounts of \$3.9 million as of June 30, 2007 and 2006.

Loans to qualified students are funded principally with government advances to Vanderbilt under the Perkins, Nursing, and Health Professions Student Loan Programs.

15. RELATED PARTIES

Vanderbilt contracts with certain related parties for the purchase of goods, performance of construction activities, and provision of other services. Significant purchases of goods and services from related parties typically are subject to competitive pricing analyses. During fiscal 2007 and 2006, Vanderbilt had related party transactions approximating \$35.3 million and \$29.2 million, respectively.

16. CHARITY CARE AND COMMUNITY BENEFITS

Consistent with its mission, Vanderbilt University Hospitals and Clinics (referred to herein as "the Hospital") maintains a policy which sets forth the criteria pursuant to which health care services are provided free of charge or at a reduced rate to patients who are unable to pay for their medical care. These services represent charity care and are not reported as revenue.

The Hospital maintains records to identify and monitor the level of charity care it provides; these records include the amount of charges forgone for services furnished under its charity care policy and the estimated cost of those services. Charity care assistance is offered on a tiered grid which is based on federal poverty guidelines. In addition to charity care assistance, all uninsured patients are provided a discount from billed charges for medically necessary services incurred at Vanderbilt. For those patients with a major catastrophic medical event, assistance is given based on the income level of the household using a sliding scale.

The cost of charity care provided by the Hospital was \$49.7 million and \$38.2 million in 2007 and 2006, respectively. Of the total uncompensated care provided by the Hospital (comprised of charity care not reported as revenue and expense reported as provision for bad debts), 53% and 48% of the total in 2007 and 2006, respectively, was charity care. Charity care patients represented 3% and 2% for 2007 and 2006, respectively, of all total patients treated at the Hospital. Other than Medicare and Medicaid disproportionate share payments, the Hospital does not receive any other external payments to offset the general cost of charity care. Rather, funding for these services comes from Hospital income from operations.

In addition to the charity care services described above, the Hospital provides a number of other services to benefit the poor for which little or no payment is received. TennCare/Medicaid and state indigent programs do not cover the full cost of providing care to beneficiaries of those programs. As a result, in addition to direct charity care costs, the Hospital provides services related to TennCare/Medicaid and state indigent programs substantially below the cost of rendering such services.

The Hospital provides public health education and training for new health professionals and provides, without charge, services to the community at large, together with support groups for many patients with special needs.

17. COMMITMENTS AND CONTINGENCIES

(A) *Construction.* At June 30, 2007, approximately \$226.6 million was committed for projects under construction and equipment purchases, to be financed primarily from anticipated debt proceeds.

(B) *Lease Obligations.* Vanderbilt leases certain equipment and real property. These leases are classified primarily as operating leases and have lease terms ranging up to fifteen years. Total operating lease expense for fiscal 2007 and 2006 was \$50.5 million and \$47.6 million, respectively. Future minimum rentals on non-cancelable operating leases with initial or remaining lease terms in excess of one year as of June 30, 2007, were as follows (in thousands):

2008	\$ 25,899
2009	24,435
2010	15,275
2011	8,999
2012	6,848
Thereafter	16,362
Total future minimum rentals	\$ 97,818

In July 2007, Vanderbilt committed, subject to landlord performance contingencies, to lease over 50% of the space in the approximately 850,000-square-foot 100 Oaks shopping center located within five miles of the main campus. Commencement of this operating lease is contingent upon the landlord obtaining consents on space use from existing tenants.

Plans are to redevelop this space primarily for medical, wellness, and office uses. The term of financial commitments under this operating lease is projected to commence during the latter portion of fiscal 2008 with an initial lease term of 12 years. In addition to having the option to renew the lease five times for additional 10-year periods, Vanderbilt will have the right of first offer to lease additional space as it becomes available. Furthermore, Vanderbilt will have additional rights to subsequently purchase the entire property during the next five years.

In conjunction with its normal business practices related to the leasing of equipment, in February 2005 and March 2004, Vanderbilt established financing mechanisms using tax-exempt bonds issued by the HEFB. As of June 30, 2007, the aggregate amount of bonds outstanding under this financing mechanism is \$23.3 million, and related payments made by Vanderbilt are reported as operating lease expense and are included in the future minimum rentals above.

(C) *Litigation and Regulation.* Vanderbilt is a defendant in several legal actions. Management believes that the outcome of these actions will not have a significant effect on Vanderbilt's financial position.

The university's compliance with laws and regulations is subject to future government review and interpretations, as well as regulatory actions unknown or unasserted at this time. Management believes that liability, if any, from such reviews will not have a significant effect on Vanderbilt's financial position.

(D) *Medical Malpractice Liability Insurance.* Vanderbilt is self-insured for the first level of medical malpractice claims. The current self-insured limits are \$5.5 million per occurrence, not to exceed an annual aggregate of \$41.0 million. For this self-insured retention, a trust fund has been established. The funding of the trust is based upon studies performed by an actuarial firm. Excess malpractice and professional liability coverage has been obtained from commercial insurance carriers on a claims-made basis for claims above the retained self-insurance risk levels.

(E) *Employee Health and Workers Compensation Insurance.* In addition to the initial tier of self-insured exposure for medical malpractice liability as previously noted, Vanderbilt also is self-insured for employee health insurance and workers compensation coverage. Actuarial liabilities are recorded based upon studies performed by actuarial firms.

(F) *Federal and State Contracts and Other Requirements.* Expenditures and F&A costs related to federal and state grants and contracts are subject to adjustment based upon review by the granting agencies. The amounts, if any, of expenditures that may be disallowed by the granting agencies cannot be determined at this time, although management expects they will not have a significant effect on Vanderbilt's financial position.

(G) *Health Care Services Revenue.* Revenue from health care services includes amounts paid under reimbursement agreements with certain third-party payers and is subject to examination and retroactive adjustments. Any differences between estimated year-end settlements and actual final settlements are reported in the year final settlements are known. Substantially all settlements have been made through the year ended June 30, 2004.

In August 1996, Congress approved the Health Insurance Portability and Accountability Act of 1996 (HIPAA). Under HIPAA, the federal government was given substantial resources and authority for the completion of fraud and abuse investigations, and HIPAA has established substantial fines and penalties for offenders. Management continues to refine policies, procedures, and organizational structures to enforce and monitor compliance with HIPAA, as well as other government statutes and regulations.

(H) *Partnership Investment Commitments.* There were \$827.7 million of commitments to venture capital, real estate, and distressed security investments as of June 30, 2007. These funds may be drawn down over the next several years upon request by the general partners. As of June 30, 2007, \$84.1 million of unallocated cash and cash equivalents in the managed endowment are held to meet these obligations. Management expects to finance these commitments with available cash and expected proceeds from the sale of securities.

(I) *McKendree Village, Inc. Debt Guaranty.* In July 1998, Vanderbilt and McKendree Village, Inc., a not-for-profit retirement community, entered into a joint venture agreement. In September 1998, Vanderbilt guaranteed payment of \$19.8 million of debt issued by McKendree Village. As of June 30, 2007, the balance of the guaranteed debt was \$18.1 million. No liability has been recorded under this guarantee.

THE VANDERBILT UNIVERSITY

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2007

(1) Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards summarizes the expenditures of The Vanderbilt University (the University) under federal programs for the year ended June 30, 2007. Because the schedule presents only a selected portion of the operations of the University, it is not intended to, and does not, present the financial position, changes in net assets, or cash flows of the University.

For purposes of the Schedule of Expenditures of Federal Awards, federal awards include all grants, contracts, and similar agreements entered into directly between the University and agencies and departments of the federal government and all subawards to the University by nonfederal organizations pursuant to federal grants, contracts, and similar agreements. The awards are classified into Type A and Type B programs in accordance with the provisions of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Clustered award categories are as follows:

Research and Development – Includes awards for systematic study directed toward fuller scientific knowledge or understanding of the subject studied, and are funded primarily by The National Institutes of Health.

Student Financial Aid – Includes certain awards to provide financial assistance to eligible students, primarily under the Federal Work-Study Program (FWS), Scholarship Program for Students of Exceptional Financial Need (EFN), Federal Pell Grant, and Federal Supplemental Educational Opportunity Grant (FSEOG) of the U.S. Departments of Education and Health and Human Services. The University also receives awards to make loans to eligible students under certain federal student loan programs (Federal Perkins Loan, Health Profession Student Loan, Primary Care Loan, Federal Student Nursing Loan and Loans to Disadvantaged Students). Guaranteed Loans (Stafford, Unsubsidized Stafford, Parent Loans for Undergraduate Students, and Graduate PLUS Loans) are issued to eligible students of the University or their parents by various financial institutions. Current year loan disbursements for these loan programs are included in the federal expenditures in the Schedule of Expenditures of Federal Awards (see note 3).

(2) Summary of Significant Accounting Policies for the Schedule

For purposes of the Schedule of Expenditures of Federal Awards, expenditures for federal programs are recognized on the accrual basis of accounting.

Expenditures for federal student financial aid programs are recognized as incurred and include Federal Pell program grants to students, the federal share of students' FSEOG program grants, FWS program earnings, loans to students under federally guaranteed programs and certain other federal financial assistance grants for students and administrative cost allowances, where applicable.

Expenditures for other federal awards of the University are determined using the cost accounting principles and procedures set forth in OMB Circular A-21, *Cost Principles for Educational Institutions*. Under these cost principles, certain expenditures are not allowable or are limited as to reimbursement.

Expenditures for nonfinancial aid awards include indirect costs. Indirect costs allocated to such awards for the year ended June 30, 2007 were based on predetermined fixed rates negotiated with the University's

THE VANDERBILT UNIVERSITY

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2007

cognizant federal agency, the U.S. Department of Health and Human Services. Indirect costs and recoveries of those costs under sponsored programs are classified as unrestricted expenditures and revenues, respectively, in the University's financial statements.

Negative balances represent programs with unfunded expenditures prior to normal close-out procedures, which were subsequently cost-shared or transferred to nonfederal cost centers.

(3) Federal Student Financial Assistance Programs

Federal student financial assistance made available by the University to eligible students or utilized by the University for allowable administrative expenses under grant, work-study and student loan programs and guaranteed loans offered to students of the University or their parents by financial institutions during the year ended June 30, 2007 are summarized as follows:

Grant and work-study based programs:

FWS	\$ 1,196,521
Pell	1,978,863
FSEOG	1,200,393
Academic Competitiveness Grants	184,500
National Science and Mathematics Access to Retain Talent Grants	292,000
Total	<u>\$ 4,852,277</u>

Direct loans disbursed:

Federal Perkins	\$ 2,772,053
Health Profession Student Loan	—
Primary Care Loan	—
Federal Nursing Student Loan	243,500
Nurse Faculty Loan Program	75,325
Loans for Disadvantaged Students	—
Total	<u>\$ 3,090,878</u>

Guaranteed loans disbursed:

Federal Subsidized Stafford	\$ 19,952,945
Federal Unsubsidized Stafford	24,073,355
Federal Parent Loans for Undergraduate Students	8,689,379
Federal Graduate PLUS Loans	23,784,999
Total	<u>\$ 76,500,678</u>

THE VANDERBILT UNIVERSITY

Notes to Schedule of Expenditures of Federal Awards and State of Tennessee Grant Activity

Year ended June 30, 2007

The Perkins, Health Profession Student Loan (HPSL), Primary Care Loan (PCL), Nursing Student Loan (NSL), Nursing Faculty Loan Program (NFLP) and Loans for Disadvantaged Students (LDS) programs are administered directly by the University and balances and transactions relating to these programs are included in the loan funds of the University's financial statements. Balances of loans outstanding at June 30, 2007 are as follows:

Perkins	\$	14,653,797
HPSL		321,642
PCL		274,060
NSL		1,293,781
NFLP		437,178
LDS		<u>1,369</u>
	\$	<u><u>16,981,827</u></u>

The University is responsible for the performance of certain administrative duties with respect to the guaranteed loan programs. It is not practical to determine the balance of loans outstanding to students and former students of the University under these programs for the year ended June 30, 2007. These loans are not included in the University's consolidated financial statements.

**Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

Board of Trust
The Vanderbilt University:

We have audited the consolidated financial statements of The Vanderbilt University and subsidiaries (Vanderbilt) as of and for the year ended June 30, 2007, and have issued our report thereon dated September 28, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Vanderbilt's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Vanderbilt's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Vanderbilt's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified a certain deficiency in internal control over financial reporting that we consider to be a significant deficiency.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control over financial reporting. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs (Finding 2007-01) to be a significant deficiency in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we believe that the significant deficiency described above is not a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Vanderbilt's consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Vanderbilt in a separate letter dated September 28, 2007.

Vanderbilt's response to the finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. We did not audit Vanderbilt's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Board of Trust, the audit committee, management, the U.S. Department of Health and Human Services, and other legislative or regulatory bodies governing the federal funds received by The Vanderbilt University and subsidiaries and is not intended to be and should not be used by anyone other than these specified parties.

The Vanderbilt University:

Compliance

We have audited the compliance of The Vanderbilt University and subsidiaries (Vanderbilt) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2007. Vanderbilt's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Vanderbilt's management. Our responsibility is to express an opinion on Vanderbilt's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Vanderbilt's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Vanderbilt's compliance with those requirements.

In our opinion, Vanderbilt complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2007.

Internal Control Over Compliance

The management of Vanderbilt is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Vanderbilt's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purposes of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Vanderbilt's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program

on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. Our consideration of internal control was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of Trust, the audit committee, management, the U.S. Department of Health and Human Services and other legislative or regulatory bodies governing the federal funds received by The Vanderbilt University and subsidiaries and is not intended to be and should not be used by anyone other than these specified parties.

THE VANDERBILT UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2007

(1) Summary of Auditors' Results

- (a) The type of report issued on the consolidated financial statements: **Unqualified opinion**
- (b) Significant deficiencies in internal control were disclosed by the audit of the consolidated financial statements: **Yes – see note (2) below.**

Material weaknesses: **None**

- (c) Noncompliance which is material to the consolidated financial statements: **None**
- (d) Significant deficiencies in internal control over major programs: **None**

Material weaknesses: **None**

- (e) The type of report issued on compliance for major programs: **Unqualified opinion**
- (f) Any audit findings which are required to be reported under Section .510(a) of OMB Circular A-133: **None**
- (g) Major programs:

CFDA#	Grantor	Program
Various 84.325	Various Department of Education	Research and Development Cluster Personnel Preparation to Improve Services and Results for Children with Disabilities
93.398	Department of Health and Human Services	Cancer Research Manpower
84.032	Department of Education	Federal Family Education Loan Program (School lending activities)

- (h) Dollar threshold used to distinguish between Type A and Type B programs: **\$3,000,000**
- (i) Auditee qualified as a low-risk auditee under Section .530 of OMB Circular A-133: **Yes**

(2) Findings Relating to the Financial Statements Reported in Accordance with *Government Auditing Standards*

Significant Deficiency

Finding 2007-01: Recording of Deferred Revenue

As part of the fiscal year 2007 closing process, Vanderbilt performed various analytical and other procedures on a number of account balances. During the process of performing these procedures, Vanderbilt determined that approximately \$29.2 million relating to grant and contract funds had been received prior to research or other program activities being performed to earn those funds. Therefore, these amounts should have been deferred for external reporting purposes in the year the funds were received until the related expenditures had been incurred. Upon further investigation Vanderbilt determined there

THE VANDERBILT UNIVERSITY
Schedule of Findings and Questioned Costs
Year ended June 30, 2007

was a deferred revenue impact relating to several prior periods which totaled approximately \$16.1 million (\$4.4 million applicable to fiscal year 2006). The entire deferred revenue balance was recorded during the current year-end closing process with the prior year impact recorded as an other non-operating item in the current year Statement of Activities. The balance sheet is properly stated as of June 30, 2007.

Management's 2007 year end financial close procedures and controls appropriately identified deferred revenue; however, prior year procedures were deficient as they did not identify the misrecording of cash advances on grants and contracts as revenues versus deferred revenue. Management has now implemented additional procedures to identify money received as cash advances versus reimbursement for expenditures already incurred. We recommend that management continue to monitor its accounting for grant and contract advances and adapt its accounting as circumstances in reimbursement dictate.

Management's Response

Management agrees with the recommendation. Historical practices were for management to perform a reasonableness review of designated unspent revenues on an annual basis. The fiscal 2007 year end review revealed a growing trend by certain federal agencies, foundations, and corporate sponsors to advance fund sponsored contracts and grants. In light of this trend Vanderbilt's management has developed an annual process to defer the advance funding of sponsored contracts and grants.

(3) Findings and Questioned Costs Relating to Federal Awards

None.
