Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Vanderbilt University ("the University"), which comprise the consolidated statements of financial position as of June 30, 2013 and June 30, 2012, and the related consolidated statements of activities and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the University's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Vanderbilt University as of June 30, 2013 and June 30, 2012, and the changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 18, 2013 on our consideration of Vanderbilt University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters for the year ended June 30, 2013. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Vanderbilt University's internal control over financial reporting and compliance.

Net decrease in cash and cash equivalents	\$ (66,947)	\$ (217,385)
Cash and cash equivalents at beginning of year	\$ 912,419	\$ 1,129,804
Cash and cash equivalents at end of year	\$ 845,472	\$ 912,419

The accompanying notes are an integral part of the consolidated financial statements.

Vanderbilt University

Notes to the Consolidated Financial Statements

1. Organization

The Vanderbilt University (Vanderbilt) is a private, coeducational, not-for-profit, nonsectarian institution located in Nashville, Tennessee. Founded in 1873, Vanderbilt owns and operates educational, research, and health care facilities as part of its mission to be a leading center for informed and creative teaching, scholarly research, and public service. Vanderbilt provides educational services to approximately 6,800 undergraduate and 5,900 graduate and professional students enrolled in its 10 schools and colleges.

These consolidated financial statements include the accounts of all entities in which Vanderbilt has a significant financial interest and over which Vanderbilt has control. The patient care enterprise in-

cludes Vanderbilt University Hospitals and Clinics; Vanderbilt Medical Group, a physician practice plan; and Vanderbilt Health Services, Inc. (VHS), which includes wholly owned and joint ventured businesses primarily comprised of community physician practices, imaging services, outpatient surgery centers, radiation oncology centers, a home health care agency, a home infusion and respiratory service, an affiliated health network, and a rehabilitation hospital.

All significant intercompany accounts and transactions have been eliminated in consolidation.

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements of Vanderbilt have been prepared on the accrual basis in accordance with U.S. generally accepted accounting principles. Based on the existence or absence of donor-imposed restrictions, Vanderbilt classifies resources into three categories: unrestricted, temporarily restricted, and permanently restricted net assets.

Unrestricted net assets are free of donor-imposed restrictions. All revenues, gains, and losses that are not temporarily or permanently restricted by donors are included in this classification. All expenditures are reported in the unrestricted class of net assets, since the use of restricted contributions in accordance with donors' stipulations results in the release of the restriction.

Temporarily restricted net assets are limited as to use by donor-imposed stipulations that expire with the passage of time or that can be satisfied by action of Vanderbilt. These net assets may include unconditional pledges, split-interest agreements, interests in trusts held by others, and accumulated appreciation on donor-restricted endowments which have not yet been appropriated by the Board of Trust for distribution.

Permanently restricted net assets are amounts required by donors to be held in perpetuity. These net assets may include unconditional pledges, donor-restricted endowments (at historical value), split-interest agreements, and interests in trusts held by others. Generally, the donors of these assets permit Vanderbilt to use a portion of the income earned on related investments for specific purposes.

Expirations of temporary restrictions on net assets, i.e., the passage of time along with the concomitant annual Board of Trust approval of the endowment spending rate, and/or fulfilling donor-imposed stipulations, are reported as net assets released from restrictions between the applicable classes of net assets in the consolidated statements of activities.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosure* (ASC 820) defines fair value, requires expanded disclosures

about fair value measurements, and establishes a three-level hierarchy for fair value measurements based on the observable inputs to the valuation of an asset or liability at the measurement date. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 prioritizes the inputs to the valuation techniques used to measure fair value by giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

Furthermore, ASC 820 considers certain investment funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. ASC 820 allows for using net asset value per share or its equivalent in estimating the fair value of interests in investment companies for which a readily determinable fair value is not available.

Cash and Cash Equivalents

Cash and cash equivalents are liquid assets with minimal interest rate risk and maturities of three months or less when purchased. Such assets, reported at fair value, primarily consist of depository account balances, money market funds, and short-term U.S. Treasury securities.

Prepaid Expenses and Other Assets

Prepaid expenses and other assets primarily represent inventories, prepaid expenses, and other segregated investment-related assets managed by third parties related to a legacy deferred compensation program that are earmarked to ultimately settle certain liabilities. This latter group of assets, reported at fair value, is excluded from the investments category since Vanderbilt will not directly benefit from the investment return.

Investments

Investments are reported at fair value using the three-level hierarchy established under ASC 820. Fair values for certain alternative investments, mainly investments in limited partnerships where a ready market for the investments does not exist, are based primarily on estimates reported by fund managers. The estimated values are reviewed and evaluated by Vanderbilt.

Vanderbilt has exposure to a number of risks including liquidity, interest rate, counterparty, basis, tax, regulatory, market, and credit risks for both marketable and nonmarketable securities. Due to the level of risk exposure, it is possible that near-term valuation changes for investment securities may occur to an extent that could materially affect the amounts reported in Vanderbilt's financial statements.

Vanderbilt sometimes uses derivatives to manage investment market risks and exposure. Derivatives, which consist of both internally managed transactions and those entered into through external investment managers, are reported at fair value. The most common instruments utilized are futures contracts and hedges against currency translation risk for investments denominated in other than U.S. dollars. For internally managed transactions, Vanderbilt utilizes futures contracts with durations of less than three months.

Purchases and sales of securities are recorded on the trade dates, and realized gains and losses are determined on the basis of the average historical cost of the securities sold. Net receivables and payables arising from unsettled trades are reported as a component of investments.

All endowment investments are managed as an investment pool, unless donor-restricted endowment gift agreements require that they be held separately.

Investments Allocable to Noncontrolling Interests and Net Assets Related to Noncontrolling Interests

For entities in which other organizations are minority equity participants to Vanderbilt's controlling interest, the respective assets are reported separately on the consolidated statements of financial position at fair value as investments allocable to noncontrolling interests.

The balance representing such organizations' minority or noncontrolling interests is recorded based on contractual provisions, which represent an estimate of a settlement value assuming the entity was liquidated in an orderly fashion as of the report date.

Split-Interest Agreements and Interests in Trusts Held by Others

Vanderbilt's split-interest agreements with donors consist primarily of irrevocable charitable remainder trusts, charitable gift annuities, and life income funds for which Vanderbilt serves as trustee. Assets held in these trusts are included in investments at fair value. Contribution revenue is recognized at the dates the trusts are established, net of the liabilities for the present value of the estimated future payments to be made to the donors and/or other beneficiaries. Annually, Vanderbilt records the change in fair value of split-interest agreements based on the assets that are associated with each trust and recalculates the liability for the present value of the estimated future payments to be made to the donors and/or other beneficiaries.

Vanderbilt is also the beneficiary of certain trusts held and administered by others. Vanderbilt's share of these trust assets is recorded at fair value as interests in trusts held by others with any resulting gains or losses reported as investment income.

Property, Plant, and Equipment

Purchased property, plant, and equipment are recorded at cost, including, where appropriate, capitalized interest on construction financing net of income earned on unspent proceeds. Donated assets are recorded at fair value at the date of donation. Repairs and maintenance costs are expensed as incurred. Additions to the library collection are expensed at the time of purchase.

Depreciation is calculated using the straight-line method to allocate the cost of various classes of assets over their estimated useful lives. Property, plant, and equipment are removed from the accounting records at the time of disposal.

Conditional asset retirement obligations related to legal requirements to perform certain future activities associated with the retirement, disposal, or abandonment of assets are accrued utilizing site-specific surveys to estimate the net present value for applicable future costs, e.g., asbestos abatement or removal.

Vanderbilt reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. An impairment charge is recognized when the fair value of the asset or group of assets is less than the carrying value.

Debt Portfolio Financial Instruments

Long-term debt and capital leases are reported at carrying value. The carrying value of Vanderbilt's debt is the par amount adjusted for the net unamortized amount of bond premiums and discounts. Vanderbilt employs derivatives, primarily interest rate exchange agreements, to help manage interest rate risks associated with variable-rate debt. Derivative financial instruments are reported at fair value with any resulting gain or loss recognized as a nonoperating item in the consolidated statements of activities. In addition to the credit risk of the counterparty owing a balance, the fair value of interest rate exchange agreements is based on the present value sum of future net cash settlements that reflect market yields as of the measurement date. Periodic net cash settlement amounts with counterparties are accounted for as adjustments to interest expense on the related debt.

Parties to interest rate exchange agreements are subject to risk for changes in interest rates as well as risk of credit loss in the event of nonperformance by the counterparty. Vanderbilt deals only with high-quality counterparties that meet rating criteria for financial stability and credit worthiness. Additionally, the agreements require the posting of collateral when amounts subject to credit risk under the contracts exceed specified levels.

Revenue Recognition

Vanderbilt's revenue recognition policies are:

Tuition and educational fees, net—Student tuition and educational fees are recorded as revenues during the year the related academic services are rendered. Student tuition and educational fees received in advance of services to be rendered are recorded as deferred revenue. Financial aid provided by Vanderbilt for tuition and educational fees is reflected as a reduction of tuition and educational fees. Financial aid does not include payments made to students for services provided to Vanderbilt.

Grants and contracts, government sponsors—Revenues from government-sponsored grants and contracts are recognized when allowable expenditures are incurred under such agreements.

Grants and contracts, private sponsors—Revenues from private-sponsored grants and contracts are recognized when allowable expenditures are incurred under such agreements.

Facilities and administrative (F&A) costs recovery—F&A costs recovery is recognized as revenue and represents reimbursement, primarily from the federal government, of F&A costs on sponsored activities. Vanderbilt's federal F&A costs recovery rate for on-campus research was 56.0% in fiscal 2013 and 56.0% in fiscal

2012. Vanderbilt's federal F&A costs recovery rate for off-campus research was 28.5% in both fiscal 2013 and 2012.

Health care services—Health care services revenue is reported at established rates, net of contractual adjustments, charity assistance services, and provision for bad debt. Third party contractual revenue adjustments under governmental reimbursement programs are accrued on an estimated basis in the period the related services are rendered. The estimated amounts for Medicare are adjusted as final settlements are determined by Vanderbilt's Medicare Administrative Contractor (MAC).

Vanderbilt implemented the provisions of Accounting Standards Update (ASU) 2011-07, *Health Care Entities: Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities* (ASU 2011-07) which specifies that bad debt related to patient service revenue is to be reported as a component of net patient service revenue (contra revenue) for fiscal years beginning after December 15, 2011. Vanderbilt elected to early adopt ASU 2011-07 for fiscal 2012.

Contributions

Unconditional promises to give (pledges) are recognized as contribution revenue when the donor's commitment is received. Pledges with payments due to Vanderbilt in future periods are recorded as increases in temporarily restricted or permanently restricted net assets at the estimated present value of future cash flows, net of an allowance for estimated uncollectible promises. Allowance is made for uncollectible contributions receivable based upon Vanderbilt's analysis of past collection experience and other judgmental factors.

Contributions with donor-imposed restrictions are recorded as unrestricted revenue if those restrictions are met in the same reporting period. Otherwise, contributions with donor-imposed restrictions are recorded as increases in temporarily restricted or permanently restricted net assets, depending on the nature of the restriction.

Contributions recorded as temporarily restricted net assets are released from restrictions and recognized as unrestricted net assets after any donor stipulations are met. Contributions for plant facilities are released from restrictions and recognized as a nonoperating item only after resources are expended for the applicable plant facilities.

In contrast to unconditional promises as described above, conditional promises (primarily bequest intentions) are not recorded until donor contingencies are substantially met.

Operating Results

Operating results (change in unrestricted net assets from operating activity) in the consolidated statements of activities reflect all transactions that change unrestricted net assets, except for nonoperating activity related to endowment and other investments, changes in the fair value of derivative financial instruments, contributions for plant facilities, and certain other nonrecurring items.

Endowment distributions reported as operating revenue consist of endowment return (regardless of when such income arose) distributed to support current operational needs. Vanderbilt's Board of Trust approves the amount to be distributed from the endowment pool on an annual basis, determined by applying a spending rate to an average of the previous three calendar year-end market values. The primary objective of the endowment distribution methodology is to reduce the impact of capital market fluctuations on operational programs.

Operating investment income consists of dividends, interest, and gains and losses on unrestricted, nonendowed investments directly related to core operating activities. Such income includes investment returns on Vanderbilt's working capital assets. For working capital assets invested in long-term pooled investments managed in conjunction with endowment funds, the amount resulting from pre-established distributions from pooled investments is deemed operating investment income; the difference between total returns for these pooled investments and the aforementioned pre-established distributions is reported as nonoperating activity. Operating investment income also excludes investment returns on segregated gift funds and funds set aside for nonoperating purposes such as segregated assets for self-insurance relative to malpractice and professional liability and assets on deposit with trustees.

Management and administrative support costs attributable to divisions that primarily provide health care or auxiliary services are allocated based upon institutional budgets. Thus, institutional support expense separately reported in the consolidated statements of activities relates to Vanderbilt's other primary programs such as instruction, research, and public service.

Costs related to the operation and maintenance of physical plant, including depreciation of plant assets, are allocated to operating programs and supporting activities based upon facility usage. Additionally, interest expense is allocated to the activities that have benefited most directly from the debt proceeds.

Income Taxes

Vanderbilt is a tax-exempt organization as described in Section 501(c)(3) of the Internal Revenue Code (the Code), and generally is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Vanderbilt is, however, subject to federal and state income tax on unrelated business income, and provision for such taxes is included in the accompanying consolidated financial statements.

Use of Estimates

The preparation of financial statements requires the use of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses during the reporting period as well as the disclosure of contingent assets and liabilities. Actual results ultimately could differ from management's estimates.

Redesignations

When donors amend or clarify intent for applicable contributions reported in a previous fiscal year, revisions are separately reflected as donor designation changes within the consolidated statements of activities.

Reclassifications

Reclassifications within functional expenses and accounts receivable have been made to prior year amounts to conform to the current year presentation.

Subsequent Events

On September 10, 2013, Vanderbilt terminated a \$40.0 million notional fixed-payor interest rate exchange agreement with Goldman Sachs at a cost of \$6.5 million to reduce interest rate exchange collateral exposure and to eliminate ongoing carrying costs.

3. Accounts Receivable

Accounts receivable as of June 30 were as follows (*in thousands*):

	2013	2012
Patient care	\$ 439,999	\$ 535,654
Tuition/fees, grants, and other	95,086	103,861
Accrued investment income	2,079	2,010
Accounts receivable, gross	537,164	641,525
Less: Allowance for bad debts	123,992	122,959
Accounts receivable, net	\$ 413,172	\$ 518,566
<i>Days receivable</i>	<i>41.6</i>	<i>51.0</i>

Gross patient care receivables represented 81.9% and 83.5% of total gross receivables as of June 30, 2013 and 2012, respectively. The largest portion of patient care receivables relates to Vanderbilt University Hospitals and Clinics (the Hospital) and in turn the largest component of the Hospital's receivables was from third party payors.

The Hospital provides services to patients in advance of receiving payment and generally does not require collateral or other security for those services. However, the Hospital routinely obtains assignment of (or is otherwise entitled to receive) patients' benefits payable under their health insurance programs, plans, or policies (e.g., Medicare, Medicaid, TennCare, Blue Cross, health maintenance organizations, or other commercial insurance policies).

During fiscal 2013, due to a noted trend of an increasing balance of aggregate patient care net receivables, along with corresponding

cash collections not being realized, Vanderbilt initiated an extensive analysis of its patient care net revenue accounting and estimation processes and systems, including in-depth hindsight liquidation analysis. This analysis resulted in the university recording an unfavorable \$121 million change in estimate of the net realizable value of patient receivables during fiscal 2013. This change in estimate is reflected as a reduction of health care services revenue in the accompanying consolidated statements of activities for the year ended June 30, 2013.

As of June 30, the Hospital had receivables, net of related contractual allowances, including estimated amounts for cost reports and other settlements with government payors, from the following payors (*in thousands*):

	2013	2012
Medicare	\$ 54,221	\$ 52,282
TennCare/Medicaid	40,480	65,860
Blue Cross	64,910	79,578
Other commercial carriers	84,707	136,195
Patient responsibility	30,941	43,571
Total Hospital receivables, net	\$ 275,259	\$ 377,486

Patient care bad debt charges, reported as a reduction to health care services revenue on the consolidated statements of activities, totaled \$65.3 million and \$65.7 million as of June 30, 2013 and 2012, respectively (both recorded at gross charge level).

4. Contributions Receivable

Contributions receivable as of June 30 were as follows (*in thousands*):

	2013	2012
Unconditional promises expected to be collected:		
in one year or less	\$ 32,285	\$ 31,621
between one year and five years	48,229	50,659
in more than five years	1,122	3,509
Contributions receivable	81,636	85,789
Less: Unamortized discount	1,065	1,798
Less: Allowance for uncollectible promises	10,269	11,657
Contributions receivable, net	\$ 70,302	\$ 72,334

Contributions receivable are discounted at a rate commensurate with the scheduled timing of receipt. Such amounts outstanding as of June 30, 2013, and June 30, 2012, generally were discounted at rates ranging from 0.5% to 1.5%.

The methodology for calculating an allowance for uncollectible promises is based upon Vanderbilt's analysis of write-offs as a percentage of gross pledges receivable along with assessing the age and activity of outstanding pledges.

In addition to pledges reported as contributions receivable, Vanderbilt had cumulative bequest intentions of approximately \$244.0 million and \$246.5 million as of June 30, 2013 and 2012, respectively. These intentions to give are not recognized as assets due to their conditional nature.

Contributions receivable, net as of June 30, were classified as follows (*in thousands*):

	2013	2012
Contributions receivable, net:		
Temporarily restricted	\$ 26,555	\$ 32,741
Permanently restricted	43,747	39,593
Total	\$ 70,302	\$ 72,334

5. Student Loans and Other Notes Receivable

Student loans and other notes receivable, net, as of June 30 along with related allowances for doubtful accounts were as follows (*in thousands*):

	2013		2012	
	Net Receivable	Related Allowance	Net Receivable	Related Allowance
Federal loans	\$ 18,223	\$ 1,765	\$ 17,979	\$ 1,780
Institutional loans	18,376	2,752	20,240	2,733
Faculty mortgages	6,983	-	7,190	-
Student loans and other notes receivable, net	\$ 43,582		\$ 45,409	

Vanderbilt remains committed to “no-loans” for its undergraduate students, meaning that the university is meeting full demonstrated financial need with scholarship and grant assistance. For other groups (e.g., professional school students), participation in several federal revolving loan programs, including the Perkins program, has continued. The availability of funds for loans under these programs is dependent on reimbursements to the pool from repayments on outstanding loans. Funds advanced by the federal government ultimately are refundable to the government and are classified as liabilities in the statements of financial position. Outstanding loans can-

celled under the program result in a reduction of the funds available for loan and a decrease in the liability to the government.

Included in institutional loans as of June 30, 2013, is an outstanding note receivable of \$3.6 million from McKendree Village, LLC, an affiliate of Vanderbilt that has sold all of its operations and is in the process of dissolving. Because it is unlikely McKendree Village, LLC, will be able to repay this debt, it has been fully reserved in the consolidated financial statements.

Allowances for doubtful accounts are established based on prior collection experience and current economic factors which, in management’s judgment, could influence the ability of loan recipients to repay amounts due. Institutional loan balances are written off only when they are deemed to be permanently uncollectible.

As part of Vanderbilt’s efforts to attract and retain a world-class faculty, Vanderbilt provides home mortgage financing assistance. Notes receivable amounting to \$7.0 million were outstanding at June 30, 2013. These notes are collateralized by deeds of trust on properties concentrated in the surrounding region. No allowance for doubtful accounts has been recorded against these loans based on their collateralization and prior collection history.

6. Investments

The fair value of investments consists of the following as of June 30 (*in thousands*):

	2013	2012
Derivative contract collateral and short-term securities ¹	\$ 93,632	\$ 259,835
Equity investments		
Developed market equities ²	652,091	138,400
Emerging market equities ²	367,423	379,499
Fixed income ¹	268,710	451,220
Absolute return ²	905,344	678,064
Other hedge funds ²	92,596	360,369
Private equity ³	766,243	745,136
Venture capital ³	488,936	433,306
Real estate ³	320,124	322,856
Natural resources ³	341,942	274,183
Equity method securities and trusts ⁴	19,853	18,082
Other investments ⁴	11,415	12,450
Total fair value	\$ 4,328,309	\$ 4,073,400
Total cost	\$ 3,849,347	\$ 3,570,332

¹ Fair value is based primarily on quoted prices in active markets.

² Fair value is based on the net asset value per share of the specific investments as provided by the fund managers.

³ Fair value is based on the net asset value of Vanderbilt’s ownership interests at the fund level as provided by the fund managers.

⁴ Carrying value provides a reasonable estimate of fair value for certain components.

Included in the amounts reported in the table above are investments allocable to noncontrolling interests (i.e., minority limited partners) reported at fair value. During fiscal 2013, the minority limited partners funded capital commitments totaling \$16.4 million. Additionally, Vanderbilt made payments to the minority limited partners of \$65.2 million reflecting a distribution of earnings and returned capital from the underlying private fund assets. For the year ended June 30, 2013, the minority limited partners’ interests in the results of the underlying returns from the private fund assets were \$210.4 million. The balance of unrestricted net assets related to noncontrolling in-

terests, calculated in accordance with the partnership agreements, was \$186.9 million as of June 30, 2013.

Investments, along with cash and cash equivalents, provide liquidity support for Vanderbilt’s operations. Of these combined amounts, based on prevailing market conditions as of June 30, 2013, \$725.8 million was available on a same-day basis and an additional \$1,139.3 million was available within 30 days.

Excluding derivative instruments that may be held by investment managers as part of their respective investment strategies, Vanderbilt held financial futures derivative contracts with notional values of \$278.7 million and \$729.2 million as of June 30, 2013 and 2012, respectively. The fair market value of such contracts is settled daily between counterparties.

Short-term securities and derivative contract collateral are comprised primarily of amounts posted as collateral in accordance with interest rate exchange agreements and unspent bond proceeds with trustees.

Equity investments consist of investment funds globally diversified across public markets including U.S. markets, other developed markets, and emerging markets. Fund managers of these investments have the ability to shift investments from value to growth strategies, from small to large capitalization stocks, and from a net long position to a net short position.

Developed market equities are comprised of investments in U.S. common stocks and other developed countries whose markets have a relatively high level of economic growth and security.

Emerging market equities include investments in the emerging global economies as defined by Morgan Stanley Capital International (MSCI) Emerging Markets Index.

Fixed income investments are directed towards capital preservation and predictable yield as well as more opportunistic strategies focused on generating return on price appreciation. These investments generally consist of U.S. Treasury debt securities, but may also include other highly liquid debt securities.

Absolute return investments reflect multiple strategies such as event driven, relative value, and equity funds to diversify risks and reduce volatility in the portfolio generally in hedge fund structures.

Other hedge fund investments include investments in both long and short primarily credit-oriented securities. Investments may include mortgage-backed securities, trade finance, debt and asset-backed securities, repurchase agreements, senior loans, and bank loans.

Private equity includes investments that participate primarily in leveraged buyout strategies. Distributions from these investments are received through liquidations of the underlying assets. These investments generally are held in commingled limited partnership funds.

Venture capital consists of investments that participate in early-stage, high-potential, high-risk, growth startup companies. These investments generally are held in commingled limited partnership funds. Distributions from these investments are received through liquidations of the underlying assets.

Real estate is comprised of illiquid investments in residential and commercial real estate assets, projects, or land held directly or in commingled limited partnership funds. The nature of the investments in this category is such that distributions generally reflect liquidation of the underlying assets of the funds.

Natural resources includes illiquid investments in timber, oil and gas production, mining, energy, and related services businesses held directly or in commingled limited partnership funds.

Equity method securities and trusts are investments in joint ventures accounted for under the equity method of accounting and Vanderbilt's split-interest agreements with donors.

7. Endowment

Endowment-related assets include donor-restricted endowments and institutional endowments (quasi-endowments). Gift annuities, interests in trusts held by others, contributions pending donor designation, and contributions receivable are not considered components of the endowment.

The Board of Trust's interpretation of its fiduciary responsibilities for donor-restricted endowments under the Uniform Prudent Management of Institutional Funds Act (UPMIFA) requirements, barring the existence of any donor-specific provisions, is to preserve intergenerational equity. Under this broad guideline, future endowment beneficiaries should receive at least the same level of economic support as the current generation. The overarching objective is to preserve and enhance the real (inflation-adjusted) purchasing power of the endowment in perpetuity. Assets are invested to provide a relatively predictable and stable stream of earnings to meet spending needs and attain long-term return objectives without the assumption of undue risks.

UPMIFA specifies that unless stated otherwise in a gift instrument, donor-restricted assets in an endowment fund are restricted assets until appropriated for expenditure. Barring the existence of specific instructions in gift agreements for donor-restricted endowments, Vanderbilt reports the historical value for such endowments as permanently restricted net assets and the net accumulated appreciation

as temporarily restricted net assets. In this context, historical value represents the original value of initial contributions restricted as permanent endowments plus the original value of subsequent contributions and, if applicable, the value of accumulations made in accordance with the direction of specific donor gift agreements.

Specific appropriation for expenditure of Vanderbilt's endowment funds occurs each spring when the Board of Trust approves the university's operating budget for the ensuing fiscal year. For fiscal years 2013 and 2012, Vanderbilt's Board of Trust approved endowment distributions based on 4.5% of the average of the previous three calendar year-end market values. Actual realized endowment return earned in excess of distributions is reinvested as part of Vanderbilt's endowment. For years where actual endowment return is less than the distribution, the shortfall is covered by the endowment pool's cumulative returns from prior years.

Board-appropriated endowment distributions may not be fully expended during a particular fiscal year. In some cases, endowment distributions may be approved for reinvestment into the endowment.

A summary of Vanderbilt's endowment for the fiscal years ended June 30 follows (*in thousands*):

2013

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor-restricted endowments at historical value	\$ -	\$ 23,454	\$ 1,021,892	\$ 1,045,346
Accumulated net appreciation of donor-restricted endowments	-	1,136,106	-	1,136,106
Reinvested distributions of donor-restricted endowments				
At historical value	137,686	1,642	-	139,328
Accumulated net appreciation	156,864	1,927	-	158,791
Institutional endowments				
At historical value	265,684	-	-	265,684
Accumulated net appreciation	890,088	-	-	890,088
Endowment net assets as of June 30, 2013	\$ 1,450,322	\$ 1,163,129	\$ 1,021,892	\$ 3,635,343

Vanderbilt University

2012

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor-restricted endowments at historical value	\$ -	\$ 26,889	\$ 962,796	\$ 989,685
Accumulated net appreciation of donor-restricted endowments	-	1,040,036	-	1,040,036
Reinvested distributions of donor-restricted endowments				
At historical value	133,836	1,641	-	135,477
Accumulated net appreciation	144,321	1,767	-	146,088
Institutional endowments				
At historical value	208,716	-	-	208,716
Accumulated net appreciation	840,034	-	-	840,034
Endowment net assets as of June 30, 2012	\$ 1,326,907	\$ 1,070,333	\$ 962,796	\$ 3,360,036

The components of the life-to-date accumulated net appreciation of pooled endowments as of June 30 were as follows (*in thousands*):

	2013	2012
Net realized appreciation less		
endowment distributions	\$ 1,838,135	\$ 1,644,115
Net unrealized appreciation	346,850	382,043
Total	\$ 2,184,985	\$ 2,026,158

In striving to meet the overarching objectives for the endowment, over the past 20 years, there has been an 11% annualized standard deviation in Vanderbilt's returns. This level of risk is consistent with that accepted by peer institutions. Currently, the endowment portfolio consists of three primary components, each of which is designed to serve a specific role in establishing the right balance between risk and return. Global public and private equity investments, including venture capital and many hedge funds, are expected to produce favorable returns in environments of accelerated growth and economic expansion. Absolute return and fixed income

investments are expected to generate stable returns and preserve capital during periods of poor equity performance. Real estate and natural resources allocations are designed to provide an inflation hedge.

From time to time, the fair value of assets associated with an endowed fund may fall below the level that a donor or UPMIFA requires in terms of maintenance of perpetual duration endowments. As of June 30, 2013 and 2012, Vanderbilt had deficiencies of this nature of approximately \$6 million consisting of 139 endowments and \$11 million consisting of 328 endowments, respectively. These deficiencies resulted from unfavorable market declines that occurred after the investment of recent permanently restricted contributions. Vanderbilt believes these declines are modest in relation to the total market value for donor-restricted endowments and that these deficiencies will be relatively short-term in nature.

Changes in endowment net assets for the fiscal years ended June 30 were as follows (*in thousands*):

2013

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets as of June 30, 2012	\$ 1,326,907	\$ 1,070,333	\$ 962,796	\$ 3,360,036
Endowment investment return:				
Investment income, net of fees	63,894	98,211	-	162,105

8. Investment Return

A summary of investment return, including endowment distributions, by net asset category for the fiscal years ended June 30 follows (*in thousands*):

	2013	2012
OPERATING		
Unrestricted:		
Endowment distributions	\$ 144,801	\$ 136,883
Investment income	19,675	19,831
Total operating return	164,476	156,714
NONOPERATING		
Unrestricted:		
Change in appreciation of institutional endowments, net of distributions	73,019	(31,447)
Change in appreciation of self-insurance assets	5,232	876
Investment (loss) income	23,149	(2,476)
Temporarily restricted:		
Endowment distributions	4,476	8,565
Investment income	854	276
Change in appreciation of donor-restricted endowments, net of distributions	96,231	(62,982)
Permanently restricted:		
Endowment distributions	1,279	2,447
Investment (loss) income	1,337	(969)
Total nonoperating return	205,577	(85,710)
Total investment return	\$ 370,053	\$ 71,004

The components of total investment return for the fiscal years ended June 30 were as follows (*in thousands*):

	2013	2012
Net interest, dividend, and partnership income	\$ 173,743	\$ 54,210
Net realized gains from original cost	212,662	56,783
Change in unrealized appreciation	(16,352)	(39,989)
Total investment return	\$ 370,053	\$ 71,004

In addition to a core group of investment professionals dedicated to the management of Vanderbilt's endowment, Vanderbilt also employs external investment managers. Particularly for alternative investments such as hedge funds, investment manager fee structures frequently have a base component along with a performance component relative to the entire life of the investments. Under these arrangements, management fees frequently are subject to substantial adjustments based on cumulative future returns for a number of years hence.

Investment returns are reported net of returns attributed to limited partners on investments allocable to noncontrolling interests. Investment returns are also reported net of internal management costs of \$10.4 million in fiscal 2013 and \$8.7 million in fiscal 2012.

Fees paid directly to external investment managers (i.e., segregated investment account fees) totaled \$9.6 million and \$9.0 million in fiscal 2013 and 2012, respectively.

9. Property, Plant, and Equipment

Property, plant, and equipment as of June 30 were as follows (*in thousands*):

	2013	2012
Land	\$ 73,897	\$ 73,859
Buildings and improvements	2,714,757	2,657,197
Moveable equipment	892,230	879,482
Construction in progress	160,893	55,264
Property, plant, and equipment	3,841,777	3,665,802
Less: Accumulated depreciation	2,060,484	1,938,191
Property, plant, and equipment, net	\$ 1,781,293	\$ 1,727,611

Purchases for the library collection are not included in the amounts above since they are expensed at the time of purchase. As of June 30, 2013, the estimated replacement cost for library collections, including processing costs to properly identify, catalog, and shelve materials, totaled about \$359 million.

No interest was capitalized in either fiscal 2013 or fiscal 2012.

Internally developed software costs of \$5.4 million and \$7.5 million were capitalized in fiscal 2013 and 2012, respectively.

Vanderbilt has identified conditional asset retirement obligations, primarily for the costs of asbestos removal and disposal, resulting in liabilities of \$19.9 million and \$20.0 million as of June 30, 2013 and 2012, respectively. These liabilities, which are estimated using an inflation rate of 4.0% and a discount rate of 5.0% based on relevant factors at origination, are included in accounts payable and accrued liabilities in the consolidated statements of financial position.

10. Long-Term Debt, Capital Leases, and Commercial Paper

Long-term debt consists of bonds and notes payable with scheduled final maturity dates at least one year after the original issuance date. Outstanding long-term debt, capital leases, and commercial paper

(CP) obligations are reflected in the financial statements at carrying value and, as of June 30, were as follows (*in thousands*):

	Years to Nominal Maturity	Outstanding Fixed Coupon Interest Rates as of June 30, 2013	Fiscal 2013 Effective Interest Rate ²	Outstanding Principal 2013	2012
FIXED-RATE DEBT					
Series 2008A	6	4.50%-5.00%	4.0%	\$ 117,600	\$ 122,600
Series 2008B ¹	6	4.00%-5.00%	3.9%	95,660	105,710
Series 2009A	27	4.00%-5.50%	4.9%	97,100	97,100
Series 2009B ¹	27	5.00%-5.50%	5.0%	232,900	232,900
Series 2009A Taxable	6	5.25%	5.3%	250,000	250,000
Series 2012C	5	2.00%-5.00%	1.1%	25,875	42,315
Series 2012D	25	3.00%-5.00%	3.2%	106,230	-
Series 2012E	7	2.00%-5.00%	0.8%	45,225	-

¹ Issued under Master Trust Indenture structure.

² Exclusive of interest rate exchange agreements. Inclusive of these agreements, the overall portfolio effective interest rate was 5.1%.

The preceding table reflects fixed/variable allocations before the effects of interest rate exchange agreements. Such agreements are covered in more detail in a successive note.

Tax-exempt CP and all of the aforementioned bonds (with the exception of the Series 2009A Taxable notes) have been issued by the Health and Educational Facilities Board of The Metropolitan Government of Nashville and Davidson County, Tennessee (HEFB). As a conduit issuer, the HEFB loans the debt proceeds to Vanderbilt. Pursuant to loan agreements, Vanderbilt's debt service requirements under these loan agreements coincide with required debt service of the actual HEFB bonds.

All debt instruments are general obligations of Vanderbilt. No assets are pledged as collateral for such debt.

Included in the foregoing table are hospital and clinic (patient care) bonds, with a principal balance outstanding of \$328.6 million as of June 30, 2013, that were issued under a Master Trust Indenture (MTI) structure. The MTI provides the flexibility for multiple parties to participate in debt issuances as part of an obligated group; presently, Vanderbilt's hospitals and clinics have no other members participating in the obligated group. Bonds issued under the MTI are payable from hospital revenues. All outstanding MTI bonds are also supplemented by a Vanderbilt guarantee of debt service.

Trust indentures for certain bond issues contain covenants and restrictions involving the issuance of additional debt, maintenance of a specified debt service coverage ratio, and the maintenance of liquidity facilities. Vanderbilt was in compliance with such covenants and restrictions as of June 30, 2013.

Selected information for debt, CP, and interest rate exchange agreements follows (*in thousands*):

	2013	2012
Payments for interest costs	\$ 71,475	\$ 72,125
Accrued interest expense	\$ 68,108	\$ 67,977

Payments for interest costs, including amounts capitalized, occur on varying scheduled payment dates for debt, maturity dates for CP, and settlement dates for interest rate exchange agreements. Accrued interest expense is based on applicable interest rates for Vanderbilt's debt, CP, and interest rate exchange agreements for the respective fiscal year.

Vanderbilt University

Principal retirements and scheduled sinking fund requirements based on nominal maturity schedules for long-term debt due in subsequent fiscal years ending June 30 are as follows (*in thousands*):

2014	\$ 38,465
2015	40,240
2016	54,245
2017	44,875
2018	47,070
Thereafter	879,695
Total long-term debt principal retirements	\$ 1,104,590

In addition to scheduled principal and interest payments on long-term debt obligations, Vanderbilt's capital lease agreements outstanding as of June 30, 2013, will require payments of \$0.4 million during fiscal 2014. Of those payments, \$0.4 million will be allocated toward amortizing the \$0.5 million capital lease obligation. Furthermore, requirements noted in the preceding table could be greater if Vanderbilt must purchase either a portion or all of its floating-rate notes or CP in the event of failed remarketings, on mandatory tender dates, or scheduled maturities as described in the following paragraphs.

Vanderbilt had \$134.0 million of variable-rate bonds outstanding as of June 30, 2013, consisting entirely of floating-rate notes with mandatory tender dates of October 1, 2015 and 2017.

As of June 30, 2013, Vanderbilt had \$99.2 million of tax-exempt CP outstanding and \$114.8 million of taxable CP outstanding. Vanderbilt can issue up to a combined \$675.0 million under its tax-exempt and taxable CP programs. However, issuance of incremental taxable CP beyond that outstanding as of June 30, 2013, would require approval by Vanderbilt's Board of Trust, and issuance of incremental tax-exempt CP would require approval by both Vanderbilt's Board of Trust and the HEFB as conduit issuer.

The weighted average duration of Vanderbilt's CP portfolio totaled 106 days as of June 30, 2013, and 151 days as of June 30, 2012.

Liquidity support for debt with short-term remarketing periods (CP totaling \$214.0 million) is provided by Vanderbilt's self-liquidity. As of June 30, 2013, Vanderbilt estimates that \$725.8 million of liquid assets were available on a same-day basis and an additional \$1,139.3 million was available within 30 days.

A second tier of liquidity support consists of two bank revolving credit facilities with maximum available commitments totaling \$400.0 million as of June 30, 2013, dedicated to Vanderbilt's debt portfolio liquidity support; one of these lines totaling \$200.0 million includes a general use provision. These commitments expire in March 2014 and March 2016. The maximum repayment period, which may extend beyond the expiration date, ranges from 90 days to three years. Vanderbilt has never borrowed against revolving credit agreements to support redemptions of debt.

Vanderbilt has also entered into an agreement with one bank to provide a general use line of credit with a maximum available commitment totaling \$100.0 million as of June 30, 2013. This line of credit expires in October 2014. No amounts were drawn on these credit facilities as of June 30, 2013, or June 30, 2012.

Vanderbilt's long-term debt is reported at carrying value, which is the par amount adjusted for the net unamortized amount of bond premiums and discounts. The carrying value and estimated market value of Vanderbilt's long-term debt as of June 30 were as follows (*in thousands*):

	2013	2012
Carrying value of long-term debt	\$ 1,126,931	\$ 1,115,040
Market value of long-term debt	\$ 1,196,940	\$ 1,205,749

The estimated market value of Vanderbilt's long-term debt is based on market conditions prevailing at fiscal year-end reporting dates. Besides potentially volatile market conditions, market value estimates typically also reflect limited secondary market trading. Vanderbilt's capital leases and commercial paper are also reported at carrying value, which closely approximates market value for those liabilities.

On November 29, 2012, Vanderbilt issued Series 2012D and 2012E bonds aggregating \$151.4 million for the purpose of redeeming weekly reset variable-rate debt and tax-exempt commercial paper. The Series 2012D fixed-rate bonds were issued in the par amount of \$106.2 million and include an original issue premium of \$13.4 million. The proceeds from Series 2012D were used to fund the full redemption of Vanderbilt's variable-rate Series 2000A and 2005A-1. The Series 2012D bonds have an average coupon of 3.9% and a final maturity of October 1, 2037. The Series 2012E fixed-rate bonds were issued in the par amount of \$45.2 million and include an original issue premium of \$4.8 million. The proceeds from Series 2012E were used to refund \$50.0 million of tax-exempt commercial paper. The Series 2012E bonds are noncallable with an average coupon of 3.5% and a final maturity of October 1, 2019.

None of Vanderbilt's fixed-rate debt has a mandatory tender date preceding the respective final maturity date. The Series 2008A and 2008B bonds include amortizing principal amounts each year but these bonds are noncallable before their October 2018 final maturity date. The Series 2009A and 2009B bonds include amortizing principal amounts each year beginning fiscal 2016 and these bonds may be called at par beginning October 2019. The Series 2009A Taxable notes do not amortize and are callable before the April 2019 maturity date only if Vanderbilt pays a make-whole call provision to the bondholders. The Series 2012C bonds include annual amortizing principal amounts each year, excluding October 2015, until their final maturity in October 2017. The Series 2012D bonds include amortizing principal amounts each year beginning in fiscal 2021 and may be called at par beginning October 2023. The Series 2012E bonds include annual amortizing principal amounts beginning October 2013, until their final maturity in October 2019.

11. Interest Rate Exchange Agreements

Vanderbilt has entered into interest rate exchange agreements as part of its debt portfolio management strategy. These agreements result in periodic net cash settlements paid to, or received from, counterparties. Net settlements due to counterparties totaled \$25.8 million and \$25.5 million in fiscal 2013 and 2012, respectively, and were reflected as adjustments to interest expense.

The fair value of interest rate exchange agreements is based on the present value sum of future net cash settlements that reflect market yields as of the measurement date and reflects estimated amounts that Vanderbilt would pay, or receive, to terminate the contracts as of the report date. The estimated fair value of Vanderbilt's outstanding interest rate exchange agreements was a liability of \$206.7 million and a liability of \$315.6 million as of June 30, 2013 and 2012, respectively.

Vanderbilt did not enter into any new interest rate exchange agreements during fiscal 2013 or 2012. In October 2012, Vanderbilt novated \$200 million of fixed-payor interest rate exchange agreements in order to diversify counterparty risk and reduce the university's aggregate collateral posting requirements. Following the novation and scheduled amortizations, Vanderbilt had \$718.2 million of aggregate fixed-payor interest rate exchange agreements outstanding for which the university receives 68.3% of one-month

LIBOR and pays a weighted average fixed rate of 3.78%.

Gains and losses from changes in the fair value of interest rate exchange agreements are reported in the nonoperating section of the consolidated statements of activities. These changes resulted in net gains of \$108.9 million in fiscal 2013 and net losses of \$180.6 million in fiscal 2012.

The interest rate exchange agreements include collateral pledging requirements based on the fair value of the contracts. Collateral held by counterparties as of June 30, 2013 and 2012, totaled \$95.1 million and \$236.2 million, respectively. Vanderbilt estimates that a decline in long-term LIBOR rates to approximately 2% would result in the fair value of the portfolio being a liability of approximately \$420 million and correspondingly increase Vanderbilt's collateral pledging requirements to approximately \$280 million. As of June 30, 2013, 30-year LIBOR was 3.45%.

As of June 30, 2013, Vanderbilt's adjusted debt portfolio, after taking into account outstanding fixed-payor interest rate exchange agreements, was approximately 128% fixed.

The notional amounts of Vanderbilt's outstanding interest rate exchange agreements as of June 30 were as follows (*in thousands*):

Description	Rate Paid	Rate Received	Maturity	2013	2012
Fixed-payor interest rate exchange agreements ¹	Avg fixed rate of 3.78%	Avg of 68.3% of one-month LIBOR ²	18 to 32 years	\$ 718,200	\$ 721,600
Basis interest rate exchange agreements	SIFMA ³	Avg of 81.5% of one-month LIBOR ²	22 to 23 years	\$ 500,000	\$ 500,000

¹ For one amortizing fixed-payor interest rate exchange agreement that has a notional balance of \$51.6 million as of June 30, 2013, the counterparty may exercise an option to terminate the contract, in whole or in part and at no cost, at any time from that date until the final maturity in October 2030.

² LIBOR (London Interbank Offered Rate) is a reference rate based on interest rates at which global banks borrow funds from other banks in the London interbank lending market.

³ SIFMA (Securities Industry and Financial Markets Association) is a seven-day high-grade market index rate based upon tax-exempt variable rate debt obligations.

12. Net Assets

Unrestricted net assets are internally designated into the following groups:

Designated for operations represents the cumulative operating activity of Vanderbilt and plant replacement reserves. These net assets also reflect the realized losses of derivative financing activities.

Designated gifts and grants are composed of gift and grant funds.

Designated for student loans represents Vanderbilt funds set aside to serve as revolving loan funds for students.

Designated for plant facilities represents (a) Vanderbilt's investment in property, plant, and equipment, net of accumulated depreciation, as well as (b) funds designated for active construction projects and retirement of capital-related debt, offset by (c) Vanderbilt's conditional asset retirement obligation.

Reinvested distributions of donor-restricted endowments at historical value are amounts related to donor-restricted endowments

that are reinvested in the endowment in accordance with donor requests.

Accumulated net appreciation of reinvested distributions represents cumulative appreciation on reinvestments of donor-restricted endowments.

Institutional endowments (quasi-endowments) *at historical value* are amounts set aside by Vanderbilt to generate income in perpetuity to support operating needs.

Accumulated net appreciation of institutional endowments represents cumulative appreciation on institutional endowments.

Fair value of interest rate exchange agreements, net represents the mark-to-market valuation for such contracts. Because these agreements are intended to manage interest rate risks within the debt portfolio, segregation from other designations is maintained.

Net assets related to noncontrolling interests represents minority partners' share of the equity in two partnerships (endowment pri-

Vanderbilt University

vate equity and real estate partnerships) formed to acquire, hold, and manage private fund assets.

Based on the foregoing designations, unrestricted net assets as of June 30 were as follows (*in thousands*):

	2013	2012
Designated for operations	\$ 688,845	\$ 693,025
Designated gifts and grants	103,438	118,023
Designated for student loans	23,096	22,480
Designated for plant facilities	725,965	714,944
Reinvested distributions of donor-restricted endowments at historical value	137,686	133,836
Accumulated net appreciation of reinvested distributions	156,864	144,321
Institutional endowments at historical value	265,684	208,716
Accumulated net appreciation of institutional endowments	890,088	840,034
Fair value of interest rate exchange agreements, net	(206,733)	(315,577)
Net assets related to noncontrolling interests	186,901	201,386
Total unrestricted net assets	\$ 2,971,834	\$ 2,761,188

Temporarily restricted net assets as of June 30 were composed of the following (*in thousands*):

	2013	2012
Donor-restricted endowments at historical value	\$ 23,454	\$ 26,889
Accumulated net appreciation of donor-restricted endowments	1,136,106	1,040,036
Reinvested distributions of donor-restricted endowments at historical value	1,642	1,641
Accumulated net appreciation of reinvested distributions	1,927	1,767
Contributions	52,335	101,603
Interests in trusts held by others	6,233	6,826
Life income and gift annuities	13,369	12,454
Total temporarily restricted net assets	\$ 1,235,066	\$ 1,191,216

Such temporarily restricted net assets were designated for the following purposes as of June 30 (*in thousands*):

	2013	2012
Student scholarships	\$ 391,674	\$ 353,543
Endowed chairs	332,416	301,373
Operations	258,606	234,383
Program support	90,481	81,097
Capital improvements	11,505	16,183
Subsequent period operations and other	150,384	204,637
Total temporarily restricted net assets	\$ 1,235,066	\$ 1,191,216

Permanently restricted net assets as of June 30 were composed of the following (*in thousands*):

	2013	2012
Donor-restricted endowments at historical value	\$ 1,021,892	\$ 962,796
Contributions	44,255	40,101
Interests in trusts held by others	31,859	32,431
Life income and gift annuities	34,413	31,816
Total permanently restricted net assets	\$ 1,132,419	\$ 1,067,144

Based on relative fair values as of June 30, 2013, donor-restricted endowments supported the following:

	2013	2012
Financial aid	34%	34%
Endowed chairs	29%	29%
Operations	22%	21%
Program support	8%	8%
Research, lectureships, fellowships, and other	7%	8%
Total support	100%	100%

13. Fair Value Measurement

Vanderbilt utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 inputs are inputs other than quoted prices included in Level 1 that are either directly or indirectly observable for the assets or liabilities.

Level 3 inputs are unobservable inputs for the assets or liabilities.

The level in the fair value hierarchy within which a fair value measurement in its entirety is classified is based on the lowest level input that is significant to the fair value measurement.

The classification of a financial instrument within level 3 is based on the significance of the unobservable inputs to the overall fair value measurement.

All net realized and unrealized gains and losses on level 3 investments are reflected in the consolidated statements of activities as changes in endowment appreciation or changes in appreciation of other investments. Gains and losses on investments allocable to noncontrolling interests are reported as a component of net endowment appreciation in the consolidated statements of activities. Net realized and unrealized gains and losses on interests in trusts held by others are reported as changes in appreciation of other investments in the consolidated statements of activities.

Rollforwards of amounts for level 3 financial instruments for the fiscal years ended June 30 follow (*in thousands*):

Vanderbilt University

							Change in unrealized gains (losses) for investments still held at June 30, 2013
	June 30, 2012	Realized and unrealized gains (losses)	Purchases	Sales	Transfers into and (out) of level 3	June 30, 2013

Total Level 3	\$ 2,776,389	\$ 54,630	\$ 270,308	\$ (387,798)	\$ (8,103)	\$ 2,705,426	\$ 77,720

The tables on the following pages present the amounts within each valuation hierarchy level for those assets and liabilities carried at fair value: cash and cash equivalents; investments; investments allocable to noncontrolling interests (in Vanderbilt-controlled real estate and other partnerships); interests in trusts held by others; and the fair value of interest rate exchange agreements, net.

As a measure of liquidity, the frequencies that investments may be redeemed or liquidated are also noted in the following tables, along with the numbers of days notice required to liquidate investments.

As of June 30, 2013, 86% of cash and cash equivalents were available on a same-day basis.

Most investments that have been classified as levels 2 and 3 consist of shares or units in investment funds as opposed to direct interests in the funds' underlying holdings. Since the net asset value reported

by each fund is used as a practical expedient to estimate the fair value of Vanderbilt's interest therein, its classification within the fair value hierarchy as level 2 or level 3 is based on Vanderbilt's ability to redeem its interest at or near the financial statement date. Vanderbilt defines near-term as within 90 days of the financial statement date.

Derivative contract collateral and short-term securities are comprised primarily of amounts posted as collateral in accordance with interest rate exchange agreements and unspent bond proceeds with trustees. Vanderbilt deems a redemption or liquidation frequency for these amounts as nonapplicable.

Equities and fixed income provide varying levels of liquidity as defined in the following tables. As of June 30, 2013, 74%, 64%, and 76% of developed market equities value, emerging market equities

Vanderbilt University

value, and fixed income value, respectively, were available for daily redemption requests with liquidity within 30 days.

Absolute return and other hedge funds includes daily, quarterly, and annual redemption frequencies. Notice may be provided to the fund managers to exit from the respective funds in the time periods noted.

As of June 30, 2013, 20% of absolute return investments were comprised of hedge funds in “hard lockup” periods of up to 36 months, during which redemptions or liquidations are not allowed per terms of the respective agreements with fund managers. Additionally, 6% of absolute return investments were in “soft lockup” periods of up to nine months, during which redemptions or liquidations may occur but are subject to withdrawal penalties of up to 4.5%.

The total fair values for private equity, venture capital, real estate, natural resources, and other investments were reported as illiquid as of June 30, 2013. These amounts predominantly consist of limited

partnerships. Under the terms of these limited partnership agreements, Vanderbilt is obligated to remit additional funding periodically as capital calls are exercised by the general partner. These partnerships have a limited existence and the agreements may provide for annual extensions relative to the timing for disposing portfolio positions and returning capital to investors. Depending on market conditions, the ability or inability of a fund to execute its strategy, and other factors, the general partner may extend the terms or request an extension of terms of a fund beyond its originally anticipated existence or may liquidate the fund prematurely. Vanderbilt cannot anticipate such changes because they are based on unforeseen events. As a result, the timing and amount of future capital calls or distributions in any particular year are uncertain and the related market values are reported as illiquid.

The following tables summarize the fair value measurements and terms for redemptions or liquidations for those assets and liabilities carried at fair value as of June 30 (*in thousands*):

2013

	Fair Value Measurements				Group %	Redemption or Liquidation Frequency	Days Notice

14. Retirement Plans

Vanderbilt's full-time faculty and staff members participate in defined contribution retirement plans administered by third-party investment and insurance firms. For eligible employees with one year of continuous service, these plans require employee and matching employer contributions. Such contributions immediately fully vest with the employee.

Vanderbilt's obligations under these plans are fully funded by monthly transfers to the respective retirement plan administrators with the corresponding expenses recognized in the year incurred. Vanderbilt's retirement plan contributions for fiscal 2013 and 2012 were \$63.0 million and \$59.8 million, respectively.

15. Student Financial Aid

Vanderbilt provides financial aid to students based upon need and merit. This financial assistance is funded by institutional resources, contributions, endowment distributions, and externally sponsored programs.

In fiscal 2013 and 2012, financial aid for tuition and educational fees of \$209.9 million and \$199.3 million was applied to gross tuition and educational fees of \$475.9 million and \$449.4 million, respectively. In fiscal 2013 and 2012, financial aid for room and board of \$29.2 million and \$28.8 million was applied to gross room and board of \$69.0 million and \$70.1 million, respectively.

Loans to students from Vanderbilt funds are carried at cost, which, based on secondary market information, approximates the fair value of educational loans with similar interest rates and payment terms. Loans to qualified students historically have been funded principally with government advances to Vanderbilt under the Perkins, Nursing, and Health Professions Student Loan Programs. Loans receivable from students under governmental loan programs, also carried at cost, can only be assigned to the federal government or its designees. Student loan receivables are reported net of allowances for estimated uncollectible accounts of \$4.5 million as of June 30, 2013 and 2012.

16. Natural Classification of Expenses and Allocations

For the fiscal years ended June 30, operating expenses incurred were as follows (*in thousands*):

	2013	2012
Salaries, wages, and benefits	\$ 2,277,192	\$ 2,195,716
Services	208,796	188,488
General expenses and supplies	780,529	726,116
Depreciation and amortization	174,330	172,718
Interest	68,108	67,977
Utilities, operating leases, and other	160,145	156,385
Total operating expenses	\$ 3,669,100	\$ 3,507,400

Certain allocations of institutional and other support costs were made to Vanderbilt's primary programs. Based on the functional uses of space on its campus, Vanderbilt allocated depreciation and interest on indebtedness to the functional operating expense categories as shown below (*in thousands*):

2013	Depreciation	Interest
Instruction	\$ 19,274	\$ 3,086
Research	26,784	6,022
Health care services	80,239	41,319
Public service	821	103
Academic support	8,419	1,155
Student services	1,249	355
Institutional support	14,809	1,948
Room, board, and other auxiliary services	22,735	14,120
Total	\$ 174,330	\$ 68,108

2012	Depreciation	Interest
Instruction	\$ 19,295	\$ 3,359
Research	27,080	6,276
Health care services	78,548	42,731
Public service	816	100
Academic support	8,241	1,210
Student services	1,207	428
Institutional support	15,117	1,781
Room, board, and other auxiliary services	22,414	12,092
Total	\$ 172,718	\$ 67,977

17. Charity Care Assistance and Community Benefits

VUMC (including hospitals, clinics, and physician practice units) maintains a policy which sets forth the criteria pursuant to those health care services that are provided without expectation of payment, or, at a reduced payment rate to patients who have minimal financial resources to pay for their medical care. These services represent charity care and are not reported as revenue.

The medical center maintains records to identify and monitor the level of charity care it provides, and these records include the amount of gross charges and patient deductibles, co-insurance and co-payments forgone for services furnished under its charity care policy, and the estimated cost of those services. Charity care assistance is offered on a tiered grid, which is based on federal poverty guidelines. In addition to charity care assistance, all uninsured patients are eligible for a discount from billed charges for medically necessary services that is mandated under state of Tennessee law. For those patients with a major catastrophic medical event that does not qualify for full charity assistance, additional discounts are given based on the income level of the patient household using a sliding scale.

The total cost of uncompensated care (comprising charity care and bad debt) was \$137.8 million and \$134.3 million for fiscal 2013 and 2012, respectively. Of the total uncompensated care, charity care represented 85.3% and 84.8% in fiscal 2013 and 2012, respectively.

In addition to the charity care services described above, the medical center provides a number of other services to benefit the economically disadvantaged for which little or no payment is received. TennCare/Medicaid and state indigent programs do not cover the full cost of providing care to beneficiaries of those programs. As a result, in addition to direct charity care costs, the medical center provided services related to TennCare/Medicaid and state indigent programs substantially below the cost of rendering such services.

The medical center also provides public health education and training for new health professionals and provides, without charge, services to the community at large, together with support groups for many patients with special needs.

18. Related Parties

Intermittently, members of Vanderbilt's Board of Trust or Vanderbilt employees may be directly or indirectly associated with companies engaged in business activities with the university. Accordingly, Vanderbilt has a written conflict of interest policy that requires, among other things, that members of the university community (including trustees) may not review, approve, or administratively control contracts or business relationships when (a) the contract or business relationship is between Vanderbilt and a business in which the individual or a family member has a material financial interest or (b) the individual or a family member is an employee of the business and is directly involved with activities pertaining to Vanderbilt.

Furthermore, Vanderbilt's conflict of interest policy extends beyond the foregoing business activities in that disclosure is required for any situation in which an applicable individual's financial, professional, or other personal activities may directly or indirectly affect, or have the appearance of affecting, an individual's professional

judgment in exercising any university duty or responsibility, including the conduct or reporting of research.

The policy extends to all members of the university community (including trustees, university officials, and faculty and staff and their immediate family members). Each applicable person is required to certify compliance with the conflict of interest policy on an annual basis. This certification includes specifically disclosing whether Vanderbilt conducts business with an entity in which he or she (or an immediate family member) has a material financial interest as well as any other situation that potentially could be perceived to conflict with Vanderbilt's best interests.

When situations exist relative to the conflict of interest policy, active measures are taken to appropriately manage the actual or perceived conflict in the best interests of the university, including periodic reporting of the measures taken to the Board of Trust Audit Committee.

19. Lease Obligations

Vanderbilt leases certain equipment and real property. These leases are classified primarily as operating leases and have lease terms of up to 15 years. Total operating lease expense in fiscal 2013 and 2012 was \$64.7 million and \$56.1 million, respectively.

As of June 30, 2013, future committed minimum rentals by fiscal year on significant noncancelable operating leases with initial or remaining lease terms in excess of one year were as follows (*in thousands*):

2014	\$ 40,428
2015	38,362
2016	30,270
2017	25,079
2018	19,879
Thereafter	37,315
Total future minimum rentals	\$ 191,333

20. Commitments and Contingencies

(A) *Construction.* As of June 30, 2013, approximately \$123.7 million was contractually committed for projects under construction and equipment purchases. The largest components of these commitments were for the second phase of Vanderbilt's residential colleges program, College Halls at Kissam (\$81.0 million); Vanderbilt Recreation and Wellness Center expansion (\$14.0 million); and floor build-outs in the Critical Care Tower of the adult hospital (\$10.8 million).

(B) *Litigation.* Vanderbilt is a defendant in several legal actions. One such legal action is a qui tam civil action related to billing and government reimbursement for certain professional health care services provided by the Vanderbilt University Medical Center. The lawsuit is related to an ongoing civil investigation by the U.S. Department of Justice and the Office of Inspector General for the Department of Health and Human Services and Vanderbilt is fully cooperating with the investigation. Vanderbilt believes that the outcome of these actions will not have a significant effect on its consolidated financial position.

(C) *Regulations.* Vanderbilt's compliance with regulations and laws is subject to future government reviews and interpretations, as well as regulatory actions unknown or unasserted at this time. Vanderbilt believes that the liability, if any, from such reviews will

not have a significant effect on Vanderbilt's consolidated financial position.

D) *Medical Malpractice Liability Insurance.* Vanderbilt is self-insured for the first level of medical malpractice claims. The current self-insured retention is \$5.5 million per occurrence, not to exceed an annual aggregate of \$43.0 million. For this self-insured retention, investments have been segregated. The funding for these segregated assets is based upon studies performed by an independent actuarial firm. Excess malpractice and professional liability coverage has been obtained from commercial insurance carriers on a claims-made basis for claims above the retained self-insurance risk levels.

(E) *Employee Health and Workers Compensation Insurance.* Vanderbilt is self-insured for employee health insurance and workers compensation coverage. Vanderbilt's estimated liabilities are based upon studies conducted by independent actuarial firms.

(F) *Federal and State Contracts and Other Requirements.* Expenditures related to federal and state grants and contracts are subject to adjustment based upon review by the granting agencies. The amounts, if any, of expenditures that may be disallowed by the granting agencies and the resultant impact on government grants and contract revenue as well as facilities and administrative cost recovery cannot be determined at this time, although management

Vanderbilt University

expects they will not have a significant effect on Vanderbilt's consolidated financial position.

(G) *Health Care Services*. Revenue from health care services includes amounts paid under reimbursement agreements with certain third-party payors and is subject to examination and retroactive adjustments. Any differences between estimated year-end settlements and actual final settlements are reported in the year final settlements are known. Substantially all final settlements have been determined through the year ended June 30, 2010. Final settlements relative to periods through June 30, 2011, are expected to be complete during fiscal 2014.

(H) *HIPAA Compliance*. Under the Health Insurance Portability and Accountability Act of 1996 (HIPAA), the federal government has authority to complete fraud and abuse investigations. HIPAA

has established substantial fines and penalties for offenders. Vanderbilt maintains policies, procedures, and organizational structures to enforce and monitor compliance with HIPAA, as well as other applicable local, state and federal statutes and regulations.

(I) *Partnership Investment Commitments*. There were \$555.3 million of commitments to venture capital, real estate, and private equity investments as of June 30, 2013. These funds may be drawn down over the next several years upon request by the general partners. Vanderbilt expects to finance these commitments with available cash and expected proceeds from the sales of securities. In addition, Vanderbilt is a secondary guarantor for \$21.8 million of commitments for certain investment vehicles where minority limited partners in subsidiaries that Vanderbilt controls have the primary obligations.

VANDERBILT UNIVERSITY

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2013

(1) Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") summarizes the expenditures of Vanderbilt University (Vanderbilt) under programs of the federal government for the year ended June 30, 2013. The information in this schedule is presented in accordance with the requirements of U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments and NonProfit Organizations*. Because the Schedule presents only a selected portion of the operations of Vanderbilt, it is not intended to, and does not, present the financial position, changes in net assets, or cash flows of Vanderbilt.

For purposes of the Schedule, federal awards include all grants, contracts, and similar agreements entered into directly between Vanderbilt and agencies and departments of the federal government and all subawards to Vanderbilt by nonfederal organizations pursuant to federal grants, contracts, and similar agreements.

(2) Summary of Significant Accounting Policies for the Schedule

For purposes of the Schedule, expenditures for federal programs are recognized on the accrual basis, which is consistent with generally accepted accounting principles.

Expenditures for federal student financial aid programs are recognized as incurred and include Federal Pell program grants to students, the federal share of students' FSEOG program grants, FWS program earnings, loans to students under federally guaranteed programs and certain other federal financial assistance grants for students and administrative cost allowances, where applicable.

Expenditures for other federal awards of Vanderbilt are determined using the cost accounting principles and procedures set forth in OMB Circular A-21, *Cost Principles for Educational Institutions*. Under these cost principles, certain expenditures are not allowable or are limited as to reimbursement.

Expenditures for certain non student financial aid awards include indirect costs. Indirect costs allocated to such awards for the year ended June 30, 2013 were based on predetermined fixed rates negotiated with Vanderbilt's cognizant federal agency, the U.S. Department of Health and Human Services. Indirect costs and recoveries of those costs under sponsored programs are classified as unrestricted expenditures and revenues, respectively, in Vanderbilt's financial statements.

Negative amounts represent adjustments or credits to amounts reported as expenditures in prior years. CFDA numbers and pass-through numbers are provided when available.

VANDERBILT UNIVERSITY

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2013

(3) Federal Student Financial Assistance Programs

Federal student financial assistance made available by Vanderbilt to eligible students or utilized by Vanderbilt for allowable administrative expenses under grant, work-study and student loan programs and guaranteed loans offered to students of Vanderbilt or their parents by financial institutions during the year ended June 30, 2013 are summarized as follows:

Grant and work-study based programs:

FSEOG	84.007	\$	370,043
FWS	84.033		1,530,586
Pell	84.063		3,866,146
Total		\$	<u>5,766,775</u>

Loans disbursed:

Federal Perkins	84.038	\$	1,721,979
Nurse Faculty Loan Program	93.264		1,056,526
Nursing Student Loans	93.364		426,500
Total		\$	<u>3,205,005</u>

Guaranteed direct loans disbursed:

Federal Stafford	84.268	\$	944,796
Federal Unsubsidized Stafford	84.268		44,129,140
Federal Parent Loans for Undergraduate Students PLUS	84.268		6,135,636
Federal Graduate PLUS Loans	84.268		30,275,498
Total		\$	<u>81,485,070</u>

The Federal Perkins Loan Program is administered directly by the University and balances and transactions relating to this program are included in the University's financial statements. The administrative costs during the year ended June 30, 2013 is \$199,802. The Perkins Loan Program principal cancelled for the year ended June 30, 2013 is \$119,094 (CFDA# 84.037).

VANDERBILT UNIVERSITY

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2013

The Perkins, Nurse Faculty Loan Program (NFLP), Nursing Student Loan (NSL), Health Profession Student Loan (HPSL), and Primary Care Loan (PCL) programs are administered directly by the University and balances and transactions relating to these programs are included in Vanderbilt's consolidated financial statements. Balances of loans outstanding at June 30, 2013 are as follows:

Perkins	84.038	\$ 14,759,443
NFLP	93.264	2,784,963
NFLP ARRA	93.408	725,413
NSL	93.364	1,588,098
HPSL	93.342	46,878
PCL	93.342	42,818
		<u>\$ 19,947,613</u>

Vanderbilt is responsible for the performance of certain administrative duties with respect to the guaranteed direct loan programs. It is not practical to determine the balance of loans outstanding to students and former students of Vanderbilt under these programs for the year ended June 30, 2013. These loans are not included in Vanderbilt's consolidated financial statements.

(4) Awards to Subrecipients

Certain federal funds are provided to subrecipient organizations by the University. The expenditures incurred by the subrecipients are reimbursed by the University and included in the Schedule for the year ended June 30, 2013. The University passed through \$61,878,682 in federal funds to subrecipients under its Research and Development Cluster, and \$6,042,115 combined in the remaining federal programs as follows:

<u>CFDA</u>	<u>Program Name</u>	<u>Amount</u>
47.076	Education and Human Resources	\$ 134,555
64	Unknown/Veteran's Affairs	132,821
84.325	Special Education - Personnel Development to Improve Services & Results for Children with Disabilities	554,612

93.600	Head Start	28,000
98.001	USAID Foreign Assistance for Programs Overseas	617,263
	Total	<u>\$6,042,115</u>

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Trust
Vanderbilt University

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Vanderbilt University ("the University"), which comprise the statement of financial position as of June 30, 2013 and June 30, 2012, and the related consolidated statements of activities and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements, and have issued our report thereon dated October 18, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of Vanderbilt University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

PricewaterhouseCoopers LLP, 830 Crescent Centre Drive, Suite 260, Nashville, TN 37067
T: (615)503 2860, F: (615) 503 2870, www.pwc.com/us

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

PricewaterhouseCoopers LLP

October 18, 2013

Independent Auditor's Report on Compliance For Each Major Federal Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

Board of Trust
Vanderbilt University

Report on Compliance for Each Major Federal Program

We have audited Vanderbilt University's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Vanderbilt University's major federal programs for the year ended June 30, 2013. Vanderbilt University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Vanderbilt University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Vanderbilt University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Vanderbilt University's compliance.

Opinion on Each Major Federal Program

In our opinion, Vanderbilt University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of Vanderbilt University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Vanderbilt University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Vanderbilt University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Vanderbilt University
Summary of the Status of Prior Year Audit Findings
June 30, 2013

2012-1 Student Status Change

According to 34 CFR section 682.610, the institution must report a change in a student's enrollment status directly to the Department of Education, the lender, or the guarantee agency (whichever applies) within 30 days if a student has ceased to be enrolled (or failed to enroll) at least half time (or, in some cases, full time) or changed his or her permanent address, and the institution does not expect to submit its next SSCR within the next 60 days.

The auditors noted one student of 25 whose status change was not submitted to the National Student Loan Data System (NSLDS) within the required 60 day time frame for students who ceased to be enrolled. The noted exception during testwork was 12 days late.

Status

Resolved - The corrective action plan was implemented.
